The Mission of Swift & Company

Swift & Company has become one of the large businesses of the world through continuing to meet the growing needs of a nation and a world.

Society has a right to ask how the increasing responsibilities and opportunities for usefulness which go with such growth are being used by the men who direct its affairs-and themen have the right to answer:

To promote the production of live stock and perishables and increase the food supply;

To reach more people with more and better meat;

To make a fair competitive profit, in o'rder to reimburse the 25,000 shareholders for the use of their capital, and to provide for the future development of the business;

To reduce to a minimum the costs of preparing and distributing meat and to divide the benefits of efficiency with producer and

To live and let live, winning greater business only through greater usefulness, with injury to nothing but incompetency, inefficiency and waste; to deal justly, fairly, and frankly with

These are the purposes and motives of the men who direct the policies and practices of Swift & Company.
