The Latest in Fall Suits

URING the past week we have received large additions to our Suit stock so that we are now prepared to show a very complete line in all the popular materials, such as tricotine, polo cloth, serge, poplin, broadcloth, etc. The styles are certainly most attractive.

Our LOW CASH PRICES are the things which will astonish you most. We do not mark up our Suits with a high profit for early season selling, as is the case in many stores, but mark them at a low price throughout the season.

Our Suits are selling almost as fast as they arrive, so better make your selection early. Early buyers always get the best garments and pay no more for them than late comers.

Prices on Suits \$25 to \$75 An especially \$25 to \$39 range from ___ \$25 to \$39

THE NEW DRESSES

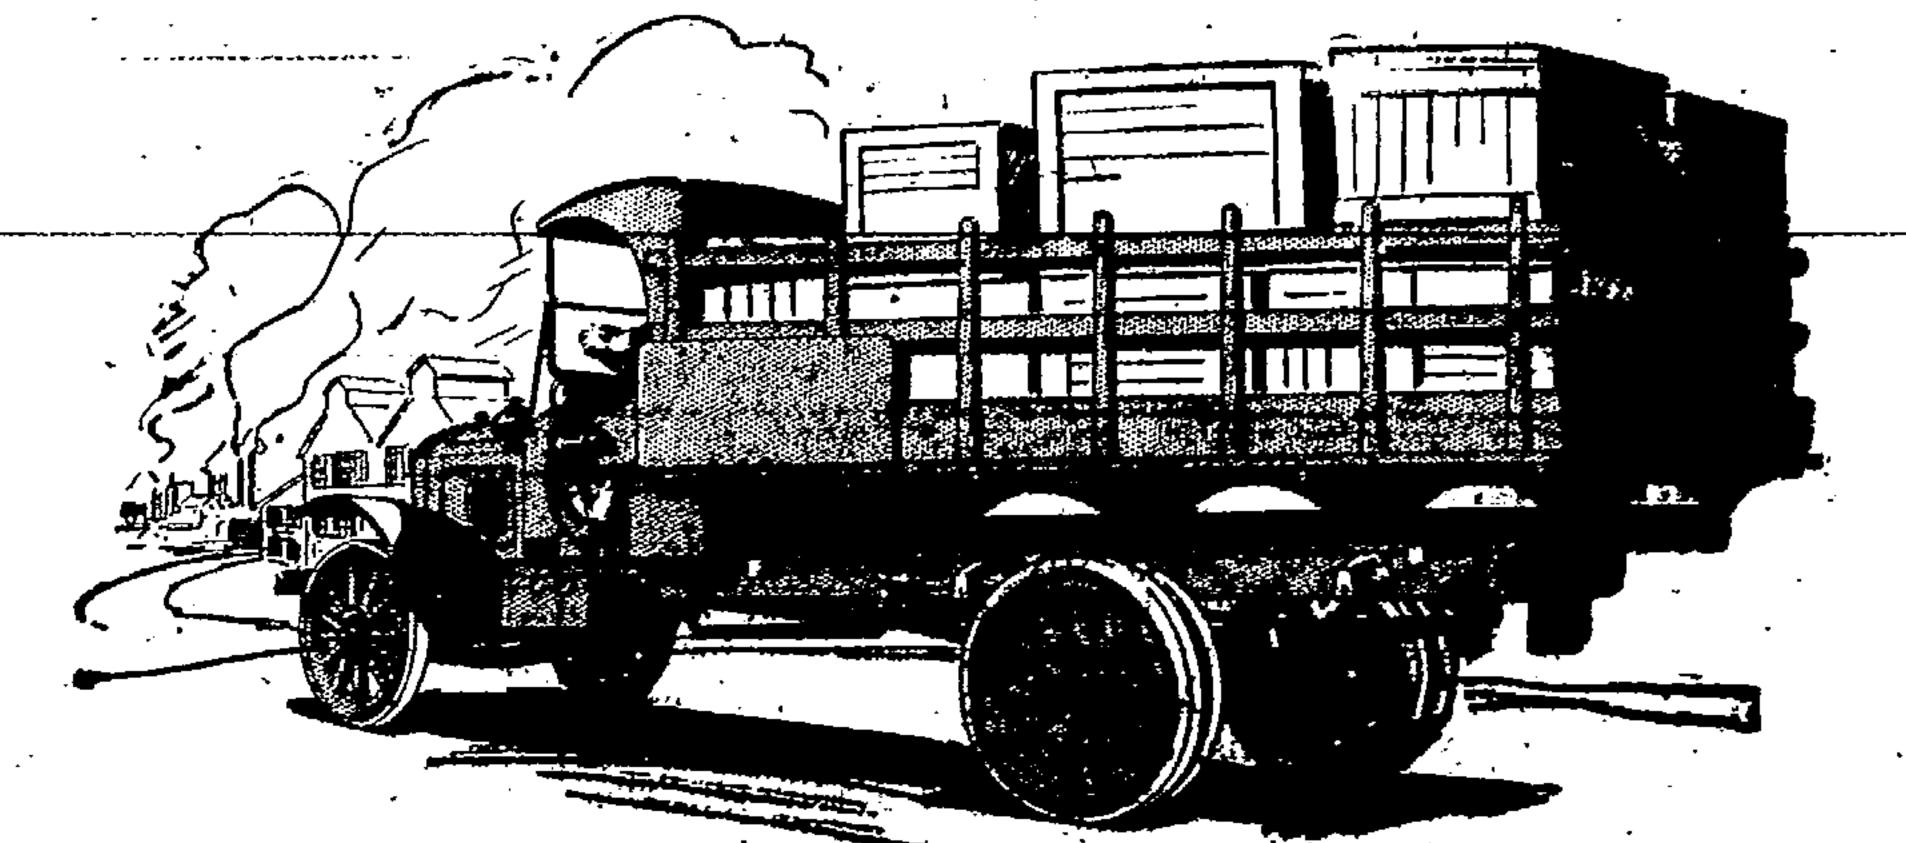

During the past few days we have had many of our friends tell us that we have the most attractive line of Fall Dresses which they have seen anywhere. We have spent a great deal of time and unusual care in selecting our Dresses this fall and we believe our customers have good reason for these complimentary remarks.

Prices on Serge Dresses range from \$16.00 to \$28.00, Tricotines from \$28.00 to \$55.00, Satins from \$16.00 to \$35.00. You will find the prices lower than you can make them yourself.

WHYIT PAYS TO TRADE AT THIS STORE

This is a reliable store and sells good merchandise at Low, Cash Prices. When you have made a purchase at this store you can feel fully assured that you have received full 100% value for every dollar you have spent. We are honestly trying to help cut the high cost of living by sharing part of the profits with our customers. There are hundreds and hundreds of people in this vicinity who like to trade at this store just because of these facts and we are gaining new customers every day. We are particularly gratified to see so many people from Andover who have come to be regular

Stewart Saves Four Ways

Power Waste, Repair Costs and Tire Wear Reduced to Minimum in Stewarts. First Cost Averages \$200 to \$300

ORE than ninety per cent of Stewart power ' 🕨 is effective. It means Stewarts will work a day or a week, or years, on 25 per cent less gasoline than the average truck requires. Many trucks waste 30 per cent or more of power

in complicated transmission. The power you pay

for doesn't act where you want it-at the rims of the driving wheels. Stewarts simplified design ends definitely the need of frequent repairs and constant tinkering. More than 600 parts are eliminated, all of which were points of power waste and truck wear. A new engineering principle exclusive to Stewart made this complex nest of truck troubles unnecessary.

> That is Why in Five Years No Stewart Has Worn Out

uninterrupted service. Investigate the Stewart. Compare the operating and upkeep cost of a Stewart with that of any other truck. Compare their records of uninterrupted service.

This is the test that decided many thousand truck

operators to buy Stewarts. They are used by more than 200 lines of business in 27 countries, meeting every hauling requirement in every climate and condition with satisfaction and economy. Ranging from the light 34-ton truck to the powerful 335-ton size, they answer every truck hauling problem. Stewart advantages are so marked that some truck operators have disposed of their old fleets completely, replacing them with Stewarts. They saw that Stewart transportation would quickly repay n better service at lower cost the loss they sustained in selling the old fleets at used-truck prices. You, too, can profitably adopt Stewarts. Once a you will always want Stewart reliability.
