unjust. They have been working night and day to get water for just such an emergency as this. The fault is entirely with the water patron who allows his water to run to waste in order to protect his plumbing. There is no remedy for the condition excepting that of obliging every wat-量 er consumer to place a meter on his water line, and pay for h the water he lets run to waste. The Village Board are negligent only in not making this regulation years ago. This is not the first time this condition has prevailed in Andover. It has been the case almost every winter for the past ten years. But this time it has done for us what many have prophesied it would do, and given us a staggering

THE MAN WITHOUT THE TITLE.

And few of his host of American friends ever knew that he wore an Austrian title, even in those earlier days when it would have been for his praise to have announced it. Worldly fame was little to him ' in the light of the great work to which he was so distinctly called. But the title has been thrust to the winds, and the old name, by his appeal to the courts, has been changed from Rev. F. E. Rimanoczy to Rev. Fred E. Robinson.

Come and hear the music and the message of this splendid American whose friends are legion. Let him prove to you that his work voices the true conservation of community interests. Seldom does he go once to a community without receiving an urgent and official ... invitation to come again. His is a happy and appealing type of Christian citizenship.

His stay is short, beginning with Sunday, February 1st and continuing for two weeks only. First week's subjects are as follows: Monday evening, February 2nd, "Mobilization Night;" Tuesday evening, "Mother's Night;" Wednesday evening, "Men's Night;" Thursday, "Skeptic's Night;" Friday, "Young People's Night." You are invited to each and all of these services. Musical and song service each evening at 7:30. Chorus choir under the management of Mr.
