Our contribution to the course is a sweeping reduction ' on 66 of our favorite pure wool fabrics — every one of which has bit the dust.

Don't ask how we do it.

The loss is ours but the gain is yours—if any of these 66 fabrics strikes your fancy.

At these reduced prices no man can grumble at the highcost of living!

## The Neighborly Grocery

We conduct a grocery store that handles food- ? stuffs on the neighborly plan. That is, you are buy- Iing at a store that takes an interest in the community in which it is located, and sells to its patrons accordingly. Our stock is large, consequently we buy at close prices. We sell in the same manner that we buy—at the closest possible prices.
