To buy ANDOVER-TEXAS OIL & DRILLING COMPANY stock at par (\$1.00 per share) as the stock will be advanced to \$1.25 per share June 15, 1920.

3 PER CENT DIVIDEND

On June 1, 1920, less than three months after incorporating, THE AND-OVER-TEXAS OIL & DRILLING CO. paid a dividend of 3 per cent. to all stockholders of record May 26, 1920. This dividend was paid from the proceeds of oil sold and profits from contract drilling. On account of congested freight conditions our drilling outfits have been delayed in transit but Feild Manager Rogers has secured a drilling machine which will be used on our leases until our own equipment arrives.

### 10,000 BARREL WELL

The Texas Company Gholson No. 8, the biggest sensation of last week, was brought in directly north of our wells with a flow of 10,000 barrels per day at a depth of 3,134 feet. The Chamber of Commerce at Santa Anna, Texas says: The Gladys Belle well, Pope No. 5, which came in at 1,573 feet with an estimated flow of 600 barrels opens an immense field and promises to be one of the biggest and sanest sensations in oil history." Our wells and leases in the Brownwood field are only a short distance east of the Gladys Belle well. We have also acquired acreage near this well

GEOLOGISTS REPORT

That the same sand underlies the Brownwood field as in these two wells. If this is so and we firmly believe it is, as there has never been a deep test made in this field it will give us three oil producing sands instead of one as the oil in our wells is found at a depth of about 500 feet. We will drill a deep well as soon as our drilling outfits arrive.

Our first allotment of stock sold very rapidly. You cannot afford to wait until this allotment is sold and the price of the stock advanced. Do not delay but fill out the coupon and mail immediately.

> Andover-Texas Oil & Drilling Co., Inc., Andover, N. Y.
