### Don't Waste the Money You Work so Hard to Get

Put it in OUR BANK—Save it and have it SAFE. Those older men you see taking it easy and enjoying the comforts of life, didn't get their money by gambling or "get-rich-quick" schemes.

While they were working hard for their money they were regularly putting some of it in the Bank, Then they knew where they could always get i and have the advice of the Banker. Come into our Bank—you are WELCOME.

### Pathe Wins Out in Big Musical Prize Contest

Pronounced Supreme by Firemen After Most Exciting Test

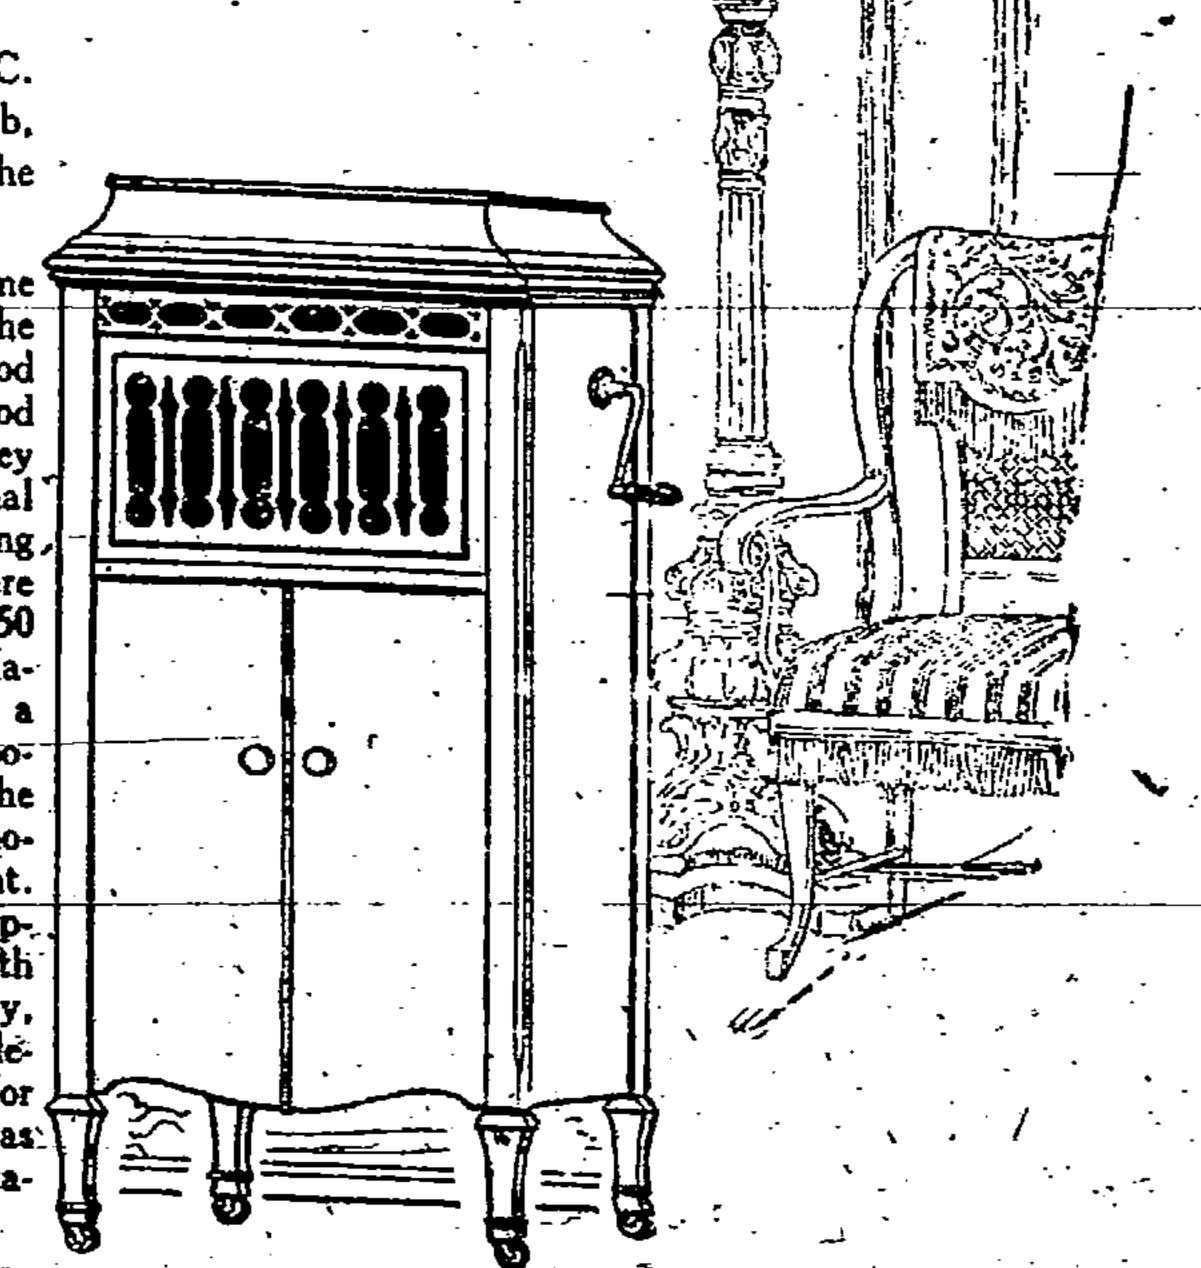

Eight Leading Phonographs Compéte and Fall by the Wayside

In this instance it was a musical contest, held recently at the fire-house in DeKalb, Illinois, the object being to select a phonograph for the station for the benefit of the fire fighters, and for which a cash prize had been donated for the purchase of an instrument. For the capture of this noteworthy prize eight lead-

ing phonographs were entered, and they were tried out under the most exacting and difficult circumstances, with the result that after the most exhaustive test, the Pathe Phonograph was an easy winner, being unanimously its competitors.

Referring to the contest Mr. C. . Powell, Pathe dealer in DeKalb, writes an interesting account to the Pathe distributors in Chicago:

"I did not endeavor at any time o make a sale; I simply called the attention of the boys to the good points of the Pathe and those good did the rest. From an educational point there could have been nothing, better for me. On the floor were the following makes, all of the \$150 class or better: Victor Concert Machine, Columbia, two Edisons, large and a small, a Brunswick, Sonora, a Royal and a Vista. T Pathe was easily the best phonograph on the floor, point for point. Motors were compared, winding apparatus was also noticed, tone, both as to volume, clearness and quality. the excellence of the finish and design-in fact everything came in for
