IT HAS BEEN SAID

That with all our greatness as a nation we are a wasteful,

extravegant people; that we do not take advantage of

ear opportunities as we should, or as we would if we

lived in a different country where there were not so many

of them. This is not altogether true of our community,

altho there are people even in our community who could

get about faster, increase their accumulations by using

a systematic plan for laying by a part of their income.

for accumulating small sums into a large one, come in
