An absolutely clean, efficient gasoline can be made only by the most up-to-date refining and testing methods. Every step in the manufacture of Socony gasoline—from the crude oil pipe-line to the tank of an authorized Socony dealer—is checked up by the highest standard of quality. Buy gasoline as you do tires—on a basis of serviceability. Socony users receive clean-hitting, full-mileage power from every drop of gasoline that goes into their tanks. It vaporizes easily and assures a quick start every time—that is why they buy it, regularly.
