EQUALITY

American women recently enjoyed, for the first time, the privilege of voting on a national scale. The dream that has inspired womanhood through the ages has been fulfilled.

The Grange conferred this equality upon woman half a century ago. It was the first great national body to grant women the same rights and responsibilities as men. Much of its success has been due-to the heed it has given to the deep sympathies, the clear understanding and the instinctive justice of women.

The earth has grown old with its burden of care. But at Christmas it always is young; The heart of the jewel hurns lustrous and fair, And its soul full of music breaks forth on the air. When the song of the angels is sung.

> It is coming, old earth, it is coming tunight! On the snowflakes that cover thu sod The feet of the Christ-Child fall gentle and white, And the voice of the Christ-Child tells out with delight That mankind are the children of God.

The feet of the humblest may walk in the field Where the feet of the holiest have trod. This, this is the marvel to mortals revealed When the silvery trumpels of Christmas have pealed. That mankind are the children of God.
