L. G. Coleman of Wellsville was a guest at the home of Mr. and Mrs. J. Harvey Backus Friday afternoon. Mr. Coleman has not been able to work for the past six weeks on account of the serious injury to one of his eyes, which was cut by a flying piece of steel at the Howden Machine shops.

New York produces 50 per cent. of the newspaper used in the United States, but 60 per cent. of the pulp and paper mills have no timber supplies of their own. If these mills are forced to move away because of lack of raw materials, who's going to suffer? Trees are a crop to which in the past we have not paid enough attention.

Your Want Ad will sell your real estate if you "keep at it" for a reasonable time.

GIVE YOUR HENS NEEDED ENERGY

"Energy—Power, Force, Vigor, Efficiency." That's what the dictionary says. Some folks call it "vim, pep, punch, kick." But whatever the name, it's the thing your hens MUST have in order to do a full day's work every day in order to digest enough food to maintain their bodies and regularly shell out the high-priced, profit-bringing eggs.

Perfect health and great energy go together. You can easily make your flock healthy, vigorous, energetic, by adding

PRATT'S POULTRY FOOD

to any good ration. The reason is plain. It makes the hen-machine work right, prevents a break-down from some part going wrong. It keeps the good layers to do better, it turns loafers into layers.

If you have used the genuine Pratt's Poultry Regulator you know it. If you haven't, it will pay you to let your birds prove it at our risk. A start right now, to-day, means money for you.
