WHAT IS THE MATTER WITH THAT CHILD?

When Children Grow Pale and Listless Their Blood May Be Weak

PEPTO-MANGAN MAKES RED BLOOD

Sold By Druggists in Liquid and Tablet Form — Both the Same in Medicinal Quality

When your child loses color, acts and talks without spirit, and does not play like other children, act quickly. If the condition is not a deep-seated disease but merely due to poor blood, give Pepto-Mangan. Gude's Pepto-Mangan is just the tonic for pale, thin children whose blood needs rebuilding. It is exactly the ingredients that increase and enrich the blood.

Beneficial results show almost at once in brighter eyes, blooming cheeks, a sprightly step, and the whole system made more vigorous.

Pepto-Mangan is obtainable in liquid or tablet form, whichever proves most convenient. Both forms possess identical medicinal qualities.

There is but one genuine Pepto-Mangan and that is "Gude's." Ask your druggist for "Gude's" and look for the name "Gude's" on the package. If it is not there, it is not Pepto-Mangan. — Advertisement.

(Washington, D. C., for the week ending March 7th, 1921.)

HAY: Timothy prices declined about \$1 per ton, in several markets during the week, but advanced about \$2 at Chicago because of light receipts. Shipping demand light and hardly equal to receipts. Much low grade hay which can be sold only at heavy discounts arriving at the markets. Alfalfa market stronger at Kansas City receipts having fallen off. Quoted No. 1, Timothy New York \$30, Cincinnati \$21.50, Memphis \$27, Chicago \$26, St. Louis \$26. FEED: While Eastern jobbing prices generally remain slightly lower than Western shipment prices Cincinnati and Pittsburgh report increased activity and a steady market with upward tendency. Southern markets dull and unchanged. Offerings from Middlewestern markets light as mills are fairly well sold up. LIVESTOCK and MEATS: The Chicago livestock market was featured during the past week by a sharp decline in sheep and lambs; following the rather sensational advance of two weeks ago. GRAIN: Although market uncertain the first part of week and partly affected by local conditions, prices worked higher until the 5th when liquidation by prominent long accounts and slower export demand caused decline. On the 7th much needed rains in Southwest, favorable crop reports in general, only small decrease in visible wheat supply and slow milling and export demand caused further declines. ARCOLA gets Sammy disappearing bed

[Disclosed from stories of ARCOLA users]

"Sammy wanted to invent things. "If I had a warm room I'd make a disappearing bed," he said. "We used stoves, and the only place for Sammy's shop was down cellar — cold. "Josh Nicholson, who sells heaters, said to put an ARCOLA in the cellar, and heat upstairs, too. The cost was low. "Now we've got real hot-water heat. We were always cold. Sammy has made money in his shop."

The IDEAL ARCOLA gives low-cost radiant warmth through the walls, to the small rooms, stores or school. Places the cottage, with or without ceiling, on the heating plate of the First Manifold. (See Leaflet, "The Ideal ARCOLA")

Keeps you on heat just as stoves radiate for one room. Complete system, installed by your local dealer, costs but little more than a stove for each room and far less than old expense for a boiler heating system.
