Maybe you can't afford to keep a petted bull, but you could co-operate in a neighborhood ownership and maintenance of one.

Don't think of New York as an industrial state solely. In 1920 it ranked fifth in total value of all crops produced, and Texas, Iowa, Illinois and Kansas, which came ahead, are all larger than New York.

Altho statistics have not been compiled, Ohio State University seems to have a larger crop of all the annual crops than any other state with 6107 per cent. of the total. It is also the second with 4115 actually registered.

It is an opinion about your neighbor's affairs. It is an opinion about your neighbor's affairs. It is an opinion about your neighbor's affairs.

MOVIES PUSHED PROPAGANDA IN 400 NEWSPAPERS.—Afraid of Movie Influencing Politics

Albany, March 28. — Work of "educating" the public to motion picture censorship was taken up to-day by the news bureau of the Republican State Committee.

Under the caption, "Clean Movies," released for publication in 400 newspapers in New York State, Governor Miller's objection to motion pictures is endorsed and the way paved for enactment of the Lusk-Clayton Censorship bill. The State Committee news bureau says in part:

"How to make moving pictures clean and how to keep them clean may be some problem, but the Legislature is doing right in taking some action to purify this industry to some extent at least.

"There will be wide differences of opinion as to what constitutes a clean picture and an unclean picture, but there can be some step taken that will put a check upon producers who figure that appealing to the worst that is in us will mean the biggest profit for them.

"It is certain that Governor Miller would not have expressed his opinion so firmly as he did unless he sincerely believed that it is time to place a check on the industry, if not to call a halt."

Similar editorials upholding Governor Miller and the Republican Legislature on the eight-cent fare bill, repeal of the direct primaries and private control of water power have been forwarded and printed in the Republican party press as original matter during the present session of the Legislature.

The only possible effective rival of this propaganda machine is the motion picture industry, film producers and distributors, it was stated to-day.

Asserting that censorship really is being laid scheme to remove motion pictures from active interest in political campaigns as a free and independent opponent of the Republican State Committee "Canned" Editorial, these interests to-day set about collecting evidence to present to the people concerning the widespread use of Republican party propaganda.

Sufficient facts and figures have been uncovered to show that eighty per cent. of the small and large newspapers of New York State use daily in the editorial columns political propaganda matter written in Albany at the dictation of State Republican Chairman George Glynn.

These editorials are not classed as political advertising, but are set forth as the original thot of newspaper proprietors. The film men point out that such editorials are paid for in political advertising during election campaigns and in state printing contracts let from public funds and distributed from Albany.

This celebrates a noble name, Altho one can't pronounce the same. Right well it's knownt that garden greens Are very rich in vitamins, That garden truck from stalks and vines Will keep you full of vitamins, And wise is he who then begins To plan for his fresh vitamins. Wisest of all, who reads this rhyme And acts on it in gardep time.

With spring housecleaning at hand, the farm woman who hasn't running water in the house casts envious glances at her more fortunate neighbor. Keep at the men folks.

A few dollars invested in having the old chairs fixed up may give a lot better value than investing the few dollars in a new one. And maybe you could do the work yourself.

If there are flowers about the yard, the women folks usually have to see to it. What are you planning?

Closing up that open kitchen drain now will do much to banish mosquitoes from the porch next summer.

Uncle Ab says: "Your words come back to you; better make 'em kind words."

Spring housecleaning will be a good time to consider banishing a lot of dust-catching bric-a-brac which you have perhaps thot of as ornamental.

Be on the watch for em-dandelions, which are good cooked as greens or uncooked as salad. And they are a mighty valuable addition to the spring dietary.

The old adage about a woman's work being never done seems to be backed up by figures. A government report indicates that farm women work thirteen hours a day in summer and ten and a half hours in winter.

Most women want a little corner of the garden all their own. The State College of Agriculture at Ithaca will send you free bulletins. J. 4. is particularly good for those who have not had much experience.

Announcing a Drastic Price Reduction on

McDOUGALL Kitchen Cabinets

Now on Sale at \$69.50

Rock bottom, we believe, has been reached in this last tremendous reduction. Price need no longer prevent you from trading your dollars for smiles — for doing without this crowning feature of an up-to-date kitchen.

\$2.00 Puts a McDougall in Your Home

This is the \$2.00 Down Sale You Have Been Waiting for and the Big Price Reduction for Which You Looked.

You need only TWO DOLLARS to place this labor-saver and leisure-maker in your home. Beginning tomorrow and continuing until our present limited stock is exhausted \$2.00 will deliver any McDougall Auto-Front Kitchen Cabinet to your kitchen, set up and ready for use.

The McDougall is an improved method of Kitchen Management. It does for the home-keeper what the dictaphone, telephone and typewriter do for the business man — it simplifies your work.

Haven't you often thought, "If I could only sit down and do this?"

A McDougall makes this possible. You sit and bath, with your hundred and one dishes and ingredients all before you, within arm's reach — not scattered around you.

It is the stooping and lifting, the trudging and carrying that brings weariness and wrinkles at the end of the day.

The sliding bottom and shelf in the utensil compartment bring all your kettles, pots and pans within easy reach as you sit before your McDougall.

The time saved alone pays for the McDougall. One hour a day saved means 365 hours a year — Fifteen Days fewer spent in the kitchen; Fifteen Days more of leisure.

What value do you place on your time? It is certainly worth two dollars today — and that is all you need to deliver your McDougall. The balance can be paid in installments of two dollars a week.
