**Sawyer Post to Disband**

It is with deep regret that our townspeople learned that Sawyer Post No. 383, G. A. R. of Whitesville, had voted to surrender its charter and disband. This action was taken at a recent meeting held at the home of Comrade P. K. Millspaugh, and was made necessary by its depleted membership.

Sawyer Post was organized 38 years ago and has had a membership of between 40 and 50 veterans. But one by one they have answered the "Last Roll Call" until only seven remain, three of whom are unable to attend Post meetings. So by unanimous vote they decided to turn their property over to the Sons of Veterans, who will try to carry on the patriotic work of their fathers, and together with the Woman's Relief Corps will conduct Memorial and Decoration Day services and services for all other patriotic days.

**Tractor Which Walks**

A new type of tractor that has recently been developed has a series of legs and walks like a horse. There are four cranks, each having a set of four legs, giving the tractor sixteen legs on which it walks. In addition there are four wheels automatically operated by the tractor engine, so that they can be lowered to the roadbed, thus converting the machine into a motor truck. The feet are skid to conform to the ground conditions.

It is said that the tractor may be used to plow, seed, cultivate, harrow, mow and harvest, rake, furnish power for other machinery as a tractor and power plant, and also to act as a truck for road work and hauling.

## FORGED CHECKS

C. K. Roberts of Arkport Arrested for Chief Bellows' Confessed to Forgeries

An amazing tale of how a man of seemingly great prosperity and of the very highest standing in his community victimized banks and business men for a period of months thru a system of clever forgeries, was revealed recently. C. K. Roberts, one of the leading men of the town of Arkport, broke down and confessed that he obtained \$1,000 last week from the First National Bank in Hornell by a series of forged checks, and that for nearly a year he had been cashing forged checks for varying amounts in Hornell and Arkport. As a result of his confession and the discovery of his financial plight, wealthy friends have come to his rescue. His speculations have been made good and no prosecution will follow.

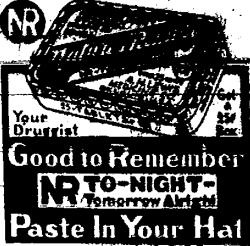

Roberts, who is a Princeton man, was formerly an educator of some note. He was principal of the schools at Arkport and other points in the state.

## FIND NEWSPAPER'S VALUE

We don't appreciate the value of some things until we have to do without them. Health is one. Newspapers are another. A village in Allegany County, our own state, has a paper. Its editor decided he could no longer keep it going and suspended publication. Then the business men got together and petitioned him to resume publication. His health made him feel he must say no. Then the business men went to a neighboring town, found an editor, and made him an offer which he accepted. That community must have felt a newspaper is a good thing for a town.

## NEW DAYLIGHT SAVING LAW WILL CAUSE GREAT CONFUSION

The recently enacted daylight saving law promises greater confusion than existed under the old law. While the rural communities are operating under old time, fourteen cities of the state have adopted daylight saving ordinances. It was generally agreed that to avoid confusion there should be one time for the whole state, either old or new, but with one section operating under one time and other sections under another no end of trouble is promised.

## ENDORSES MR. PIERCE

W. P. Capes of Albany, Secretary of the New York State Conference of Mayors and Other City Officials, Commend Buffalo's City Attorney.

William P. Capes of Albany, Secretary of the New York State Conference of Mayors and Other City Officials, has written an open letter to the Republican affiliated men and women of Western New York urging their active aid for the selection of City Attorney George E. Pierce of Buffalo to fill one of the three vacancies on the Supreme Court, bench. The primary occurs on Tuesday, Sept. 14. Mr. Capes feels that the interests of the public demand enough interest on the part of each individual on caucus day to go to the polls and see that a vote is recorded for Mr. Pierce as one selection from among the five candidates for the three vacancies.

"As one of the officials of our state association of municipal officers," writes Mr. Capes, "I can attest to the tremendous help Mr. Pierce's untiring energy, thorough knowledge of the law and keen appreciation of the public's interest have given us in our various state problems. We shall be very sorry to lose the services of Buffalo's City Attorney but must reconcile ourselves in the thought that by his selection to the Supreme Court judgeship--the people of Western New York are getting a man of exemplary qualifications. Mr. Pierce has helped the gamut from a kid on the farm down in Cattaraugus to the largest city in the state. He is just a great big wholesome fellow whose heart is in the right place."

## PHONE USERS BUSY

Repeated Rates in Rates Set Up Demand for Legislative Relief.

Every telephone user in the state of New York is interested in the fight now being waged against the increases in rates. From practically every city and from many of the smaller towns come reports of meetings of protest. Legislative relief seems to be the goal toward which all the indignant mutterings are pointing.

"The law must be changed," said George E. Pierce, City Attorney of Buffalo, who is conducting the fight on behalf of the municipality and likewise the citizens of Buffalo against the high telephone rates and the recent increases. "As things stand now, the telephone corporations, on making up the rates, take more money out of the subscribers' pockets than they want and proceed to take it. The public is left the poor victim of starting a law fight, long and expensive, to try to knock the rates off as unreasonable."

"What we want is to have the law amended so that any such public service corporation will not be able to again raise its rates against the public without first satisfying the Public Service Commission that it must actually have more money before a cent of extra charge is put upon the telephone users."

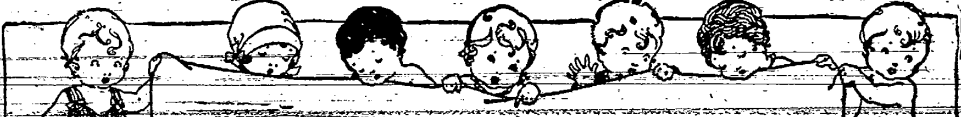

Mr. Pierce's prominence in this statewide fight on behalf of the public has won many friends for him in his contest on Tuesday, Sept. 14, for the primary nomination on the three publican ticket for one of the three Supreme Court judgeship vacancies.
