Of Interest to Farmers

LUMBER PRICES NOT LIKELY TO TUMBLE

Present Low Ebb of Market Result of Overstocking by Dealers in 1919-20—Western Goods

Lumber prices are not likely to go lower, according to facts brought out at a recent discussion at the State College of Agriculture. It was even held that they might remain stationary but that there was a likelihood that they would go higher this spring and early summer especially if conditions improved in the building trades.

It was stated that the present low ebb in the market is due to overstocking in 1919-1920 when all dealers bought more lumber than they could readily use.

The assurance that lumber prices would not go lower seems to be gained by the fact that even at the present era of business depression the use of lumber is in excess of its growth in this country and as the total timber supply is being constantly depleted while the demands for lumber are increasing the price naturally would tend to go up.

The possibilities from lumber from the West coming in the eastern markets at a lower price than the timber produced in the East and South was shown to be negligible, because the freight rates on a thousand board feet of lumber from the western coast of New York is greater than the entire cost of lumber produced in the East and South.

Because of the enormous consumption of wood pulp in news print and the rapid depletion of forest supplies in the East, where ninety per cent. of the pulp mills are, it is thought that there would be a steady increase in the price of paper pulp.

443 COWS TESTED

First Week Busy One. Federal Veterinary Assisted

443 dairy cattle were tested for tuberculosis during the first week of work. Dr. Robert Fuller, County Veterinarian, employed by the Farm Bureau, was assisted by Dr. Cady of the Federal Department this week. With the two men working together an exceptionally large amount of work was accomplished. Testing was done for 24 different farmers.

Reacting cattle were found in four different herds. Mr. John Wells, of Friendship had eight registered Holsteins showing tuberculosis. Mr. Homer Spencer, of Friendship, also had one. L. E. Talbot of Almond had four and Mr. Fred Karr, of Almond, one. At the farm of Sanford & Karr of Almond there were two suspicious animals. These will be tested in about sixty days. The report showed a very low percentage of reacting cattle. Including the two suspicious animals we would still have a percentage of only about 3.6 per cent. Applications are coming in quite rapidly at the Farm Bureau office. The Almond Farm Bureau Committee, together with the general dairy interest, has adopted a general tuberculosis eradication project and expects to have all cattle in the vicinity tested in the very near future.

WHY SUFFER SO?

Why suffer from a bad back, from sharp, shooting twinges, headaches, dizziness and distressing urinary ills? Andover people recommend Doan's Kidney Pills. Ask your neighbor! Could you ask for stronger proof of merit? Mrs. E. L. Gardner, Roubambean Ave., Andover, says: "A cold settled in the small of my back two years ago and put my kidneys in a weak, unhealthy condition. I shall never forget how my back used to ache and pain. Whenever I stooped over to dust or wash, a knife-like pain would catch me in the small of my back and then dart up my spine. Frequently millions of colored lights would flash before my eyes, blurring my sight. The action of my kidneys was irregular and caused me a lot of trouble. I am glad to say that Doan's Kidney Pills cured me of all this trouble." 60c. at all dealers. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

FRESH VEGETABLES HEALTH PROMOTERS

They Are Rich in Growth-Getting Substances Necessary to Life—Some Good Recipes

If you don't hanker after a yeast cake as a source of those growth-promoting substances called vitamins, why not have plenty of vegetables and fresh fruit in the dietary and forget about the yeast?

Tomatoes, spinach, chard, lettuce, cabbage, carrots, turnips, onions, and peas all contain the "water soluble vitamin B" which the scientists talk about, and in which yeast is rich.

The vegetables mentioned may be used in many attractive dishes; to give variety they may be used in soups, creamed dishes, scallops, and salads. Here are recipes which the workers at the State College at Ithaca have found good.

Cream of spinach soup: 2 quarts fresh spinach, 1 cup boiling water, 3 cups milk, 4 tablespoons butter, 4 tablespoons flour, salt, pepper.

Pick over the spinach and wash it thoroughly. Add the boiling water, and cook the spinach until it is tender; then rub it thru a sieve. Make a white sauce of the milk, butter and flour. Add the spinach pulp to the white sauce. Add the seasoning. Keep the soup over hot water until time to serve it. Other greens may be used instead of spinach.

Cheese in This One.

Scalloped carrots with cheese: 1 cup milk, 1 tablespoon flour, 1 tablespoon butter, 1/4 to 1/2 cup grated cheese, 2 cups cooked sliced carrots, salt, paprika, parsley or 2 tablespoons minced green pepper.

Make a cheese sauce by melting the butter over hot water and adding the flour. When they are well blended add the scalded milk and seasonings. Stir the mixture constantly until it thickens. Add the grated cheese and let the sauce stand over hot water until the cheese is melted and the sauce thoroughly cooked.

Arrange the sauce and the sliced carrots in alternate layers in a greased baking dish. Sprinkle buttered crumbs over the top and brown the dish in a moderate oven for 25 to 30 minutes.

SUPPLY OF FARM HELP

With the large number of unemployed in the cities and at the same time a shortage of help on the farms the Department of Farms & Markets is co-operating with the Farm Bureau, endeavoring to get special help for farmers. The Buffalo office has placed several men in Allegany County during the last year, and are prepared to give immediate attention to all applications.

There are many people applying to them for work on farms who have previous to the high wage period of recent years, had farm experience.

21,211 LBS. BUTTER FAT

Andover Holstein, Bred by J. M. Hartum, Makes Record

In the latest "Reported Tests of Holstein-Friesian Cows" published weekly by Malcolm H. Gardner, Delavan, Wis., Supt. of Advanced Registry of the Holstein-Friesian Association of America, a purebred registered Holstein, bred by J. M. Hartum, of Andover, is listed. The cow is now owned by A. W. Bell, of Peninsula, Ohio.

This cow, Crestwood Cornucopia Matador Lass 178156, is reported as having made at the age of 8 years, 10 months and 10 days, a record of 611.6 lbs. of milk, and 21,211 lbs. of butter fat in seven days, equivalent to 26.51 lbs. of butter.

Tests of this kind are supervised by one or more representatives from the Dairy Division of the College of Agriculture, present at each feeding and milking; to weigh the milk and test it for butter fat content. A duplicate sample of this milk is forwarded to the State College, when careful check is made before the record is reported.

How many good tenants are ever found except thru advertising?

HUNGRY PEOPLE ENJOY GOOD EATS

THE THRIFTY HOUSEWIFE finds eminent satisfaction in both the quality and the quantity of food that we sell for the price that we charge. We have catered to the people of this community for so long we know exactly what they want—how their tastes run—and and we buy to please them.

If there is a family anywhere within reaching distance that has not tried buying from us we ask them to give us a few orders. We believe results will justify them. Quality, quantity and price are a great combination at this store.

H. H. WILLIAMS THE STORE OF QUALITY

Homespun Yarn.

Early to bed, early to rise, An hour in the garden— A word to the wise!

A great promoter of neighborliness is owning a pressure cooker cooperatively. Does your neighborhood have one?

A kitchen cabinet is all right, but if I must choose between the two, give me a high stool where it's handy says one housewife.

A pint of milk a day for each adult and a quart for each child does not mean all this milk must be drunk. When used in cooking, its effect on health is the same.

If the backyard is kept neat, it is usually the womenfolks who must do it. A row or two of flowers, a shrub or so, will help make the neatness seem more worth while.

Farm house without the following improvements should have them as soon as possible, and in the order given: Running water, electric lights, power machinery, and modern heating plants.

Fly-time again. A new bulletin from the State College at Ithaca tells the why and how of controlling this dangerous pest and other insects of the household. Ask for H. 134; it's free to residents of the state.

Barking and Biting

Let dogs delight to bark and bite. We don't complain of these. But of the rabbit And his habit To bite and bark, By day or dark, Our nice young apple trees.

Uncle Ab says: Most folks who make mountains out of molehills do it with gas or hot-air.

Purebred stock mean better animals, more profits, more prosperous farmers and pleasanter farm homes.

Most farm lands in New York State need lime. F. 148. and E. 5. are two bulletin on liming which the State College of Agriculture at Ithaca will send for the asking.

You can't do two things at once. If the best growing conditions are wanted in a woods, grazing animals must be kept out. Hard tramping of soil does about the same amount of good in a woodlot as it does in a field of growing corn.

It is a terrible indictment of our modern civilization when this great country is in the period of what almost might be called economic chaos because of our great surplus food supply, while, across the seas in both directions, almost half the world is suffering for want of food. — Henry C. Wallace, secretary of agriculture.

HIS OWN GRANDFATHER

This is how a man figures out the complex relationships of his own much mixed-up family.

He is Edmond Thomas, of Saltillo, Ohio, and says:

"I met a young widow with a grown-up step-daughter and I married the widow.

"Then my father met our step-daughter and married her. That made my wife the mother-in-law of her father-in-law and made my step-daughter my step-mother and my father became my step-son. See?"

"Then my step-mother, the step-daughter of my wife, had a son. That boy was, of course, my brother because he was my father's son, but he was also the son of my wife's step-daughter, and therefore her grandson. That made me grandfather of my step-brother. Then my wife had a son.

"My mother-in-law, the step-sister of my son, is also his grandmother, because he is her step-son's child. My father is the brother-in-law of his wife. I am the brother of my own son, who is also the child of my grandmother. I am my mother's brother-in-law, my wife is her own child's aunt, and my son is my father's nephew, and I am my own grandfather."

PURE SPICES

When you are ordering Spices from your grocer, specify "Climax" brand, and we will guarantee that you secure not only full weight but absolutely pure Spices. All varieties are sold in 10 cent tins. Double the quantity may be had for 15 cents. On your next order for Spices remember to specify "Climax" Spices. SCOVILLE, BROWN & CO.

CHARLIE CHAPLIN BURNED

Charles Chaplin was painfully burned May 10th, at his motion picture studio, at Los Angeles, Cal. "Charlie" fell over an acetylene blow torch, his clothing caught fire and he was burned from ankles to waist.

SCOVILLE, BROWN & CO. Handsome Premiums free to users of Gold Cross Coffee, Tea and Baking Powder. Your grocer will gladly supply you. If you haven't a premium catalogue, ask for one. SCOVILLE, BROWN & CO.

In a new size package

10 for 10 cts

MANY smokers prefer it. They'll find that this compact package of ten Lucky Strike Cigarettes will just suit them.

Try them—dealers now carry both sizes: 10 for 10 cts; 20 for 20 cts.

It's Toasted
