Homespun Yarn
 It is not yet too late to plant glad-
 iolus bulbs.
 A good pongee silk is serviceable
 and "dainty" also.
 Screens are cheaper than doctor's
 bills, and a flyless house is a great
 comfort.
 "Needles and pins and postage
 stamps," goes the old rhyme. By the
 way, why not these very things in a
 conspicuous receptacle in the guest
 room?
 To know how to make 57 different
 varieties of pie and cake isn't worth
 as much to the family health as is a

little knowledge about balanced re-
 frigerators.
 No wonder the kitchen knives get
 dull when they're dumped all together
 in a drawer. A strap tacked at two-
 inch interval on the cupboard door
 makes a first-rate knife holder.

Bedbugs and cockroaches are a
 curiosity in most homes now-a-days,
 but it's best to be prepared. A new
 bulletin on household insects from the
 State College at Ithaca tells how to
 insure our home against these and
 other pests. Ask for H. 134; it's free.

If the kitchen screen door has a
 small hole in it, here's an easy way to
 repair it: Cut a square patch, "ravel"
 the edges, bend up the "fringe" at
 right angles to the patch, apply the
 patch over the hole, push the fringe
 thru the screen, and then bend the
 fringe over.

The ideal kitchen should be sound
 in arrangement, sightly in appear-
 ance and smooth in operation.
 Pigs are pigs, and sugar is sugar,
 but good cooks prefer fine grained to
 coarse grained in cake making.

Scraps of different kinds of meats
 may be combined to make an appetiz-
 ing dish. Veal, chicken and pork
 go well together for croquettes.
 The tough end of the porterhouse
 might better be cut off before the
 steak is cooked. Then it may be util-
 ized for broth or in some other way.

Every now and then some woman
 makes up her mind that there's a dif-
 ference between house furnishings
 and just-stuff-sitting-around. Then
 she banishes some of the jimcracks
 to the attic and everybody is happier.

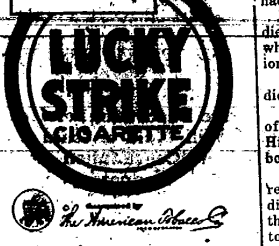

MOVIES SHOW WAY TO PUT IN PLUMBING
 College Professors Become Actors to
 Demonstrate to Farm Dwellers
 How to Have City Conven-
 iences

How farm and village homes may
 have city conveniences is soon to be
 shown in the movies. The film has
 just been made at the State Agricul-
 tural College of Agriculture at Ithaca
 by members of the department of
 rural engineering, which sent the wa-
 ter supply demonstration truck over
 the state last summer as a part of its
 extension work.

Three-sided rooms were built in
 the rural engineering laboratory, one
 for a kitchen and the other for a
 bathroom "set." Eight large blue
 nitrogen bulbs hung from above the
 sets, and two arc lights set at either
 side, gave plenty of light for the
 camera, and incidentally, too much
 heat for the actors.

Made up with the ghastly yellow
 grease-paint which shows white to the
 camera, the two professors fitted pipe
 and placed fixtures under the glare

of the lights again and again before
 the final scenes were acceptable to
 the director and "shot" by the cam-
 era man.

Night and Day Job
 For five days and far into the
 nights they labored and the camera
 man cranked at intervals.
 The film is to be in two reels. It
 will be available thru the State De-
 partment of Health at Albany to any
 community or organization in the
 state which asks for it, so far as the
 number of prints will permit. The
 picture was financed by the Atlantic
 Division of the American Red Cross.
 It will carry a message of health and
 happiness thru running water and a
 bathroom to many farm homes in the
 state, and show the men-folks how to
 install these conveniences during
 rainy days on the farm.

THE U. S. ROYAL CORD
 A famous tire—and a famous tread.
 Acknowledged among motorists and
 dealers alike as the world's foremost
 example of Cord tire building. Al-
 ways delivering the same rugged
 economy, tire after tire, and season
 after season.
 The stripes around the sidewall is
 registered as a trade-mark in the U. S.
 Patent Office.

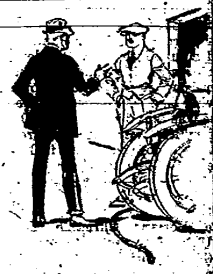

**How you can measure
 tire value in 1921 —**

"Any U. S. Tire
 is a universal
 full money's
 worth."

OFTEN it's surprising the number
 of different tire views that come
 out in a chance talk at the curb or in
 the leisure of a friend's garage.
 Almost every day you come
 across the man human enough
 to believe he can outguess
 the cut-price tag on "job-
 lots," "discontinued lines" and
 "surplus stocks."
 His opposite is the hard-
 pan car owner who sticks
 year in and year out to a
 standard brand as the only
 rational economy.

country to another to "find a market."
 There are 92 U. S. Factory Branches.
 Each one gets its share of U. S. Tires.
 There is a broad, constant, even dis-
 tribution of U. S. Tires always going
 on from these Branches to the dealer.
 Buy a U. S. Tire anywhere
 —in a community of 500 people
 or even less—and you get a
 fresh, live tire of current
 production—with all the origi-
 nal service and mileage the
 factory put into it.

"The different
 tire views that
 come out in a
 chance talk."

The owner of a medium or
 light-weight car stands on
 equal ground with every other
 car owner.
 Any United States Tire is a uni-
 versal full money's worth—backed up
 with a leadership policy of equal
 quality, buying convenience and price
 for everybody.

**June Brides---and the
 sweet girl graduates**

This is a time of the year when gift giving is as
 essential as at Christmas. Never have the stores of
 this city offered such a charming array of gift things
 at such modest prices. The reductions from last
 year are almost unbelievable.

But it is not alone gifts that are needed. Boys
 and girls must have new things to wear for com-
 mencement, now at hand. Hornell stores are show-
 ing their proudest arrays. For the girls are dresses,
 shoes, hosiery, coats and all the things needed, and
 stamped with the indelible "city style" that makes
 the wearer so proud.

For the boys, clothing and furnishings are here
 in abundance and at such modest prices that the
 merchants are frankly proud. They know they can
 save you money if you come to Hornell to do your
 shopping.

Make this graduation time one to be remem-
 bered. Let the wearing apparel and the gifts come
 from the smart shops of Hornell and see how much
 more the things will be appreciated.

Spend a day shopping in Hornell and get a
 glimpse of the new things now awaiting your ap-
 proval.

You'll find a warm welcome and a square deal
 in the stores of Hornell.
