

### SIGN-BOARDS ON THE UP-ROAD

Hamilton B. Williams

A study of the most cultured religion among the ancients shows that immortality was conceived to have that elevation in character which gave one the power to live in the nation's memory.

In order to live forever one has got to be a forever-stuff-soul; otherwise he deserves dust.

They only turn to dust who are made of dust-stuff. Forever Life is not a time measure; a quality.

It was my privilege to announce a great truth lately, a truth whose revelation on character will "save" souls for life! It is that "Reverence for Personality" indicates that one has come to think as God does.

This life to think as God does. Fancy anyone in fellowship with God who hates, who locks his door against a world-wide interest in humanity!

Fancy any pygmy mindedness in the presence of an Eternal Compassion. That most excellent person who has the care of a score of children of inadequate mentality, who will have no helper around save one who wears his heart on the sleeve, and rejoices in being able to sympathize with misfortune, has come upon a mountain of vision.

There are those who pride themselves in being able to keep emotions under. No doubt the mollusc-cales had pride in his hide.

Our civilization also is vastly unresponsive to the human problem. We

still rather insist that God is pouring out His "wrath" on the unfortunate folk of the earth in the fashion of a brutal keeper of a prison. In the popular idea God is all-loving at times.

No idea was such vague as the idea that man is a fallen creature, and under doom. Nothing could be further from the truth. And if it were true an affectionate worm would be better God.

The Persian poet was right in choosing among the many religions with the signatory of finality the one which held to the "All-compassionate God."

Who also in us lives and has His Being. Unless infinitude of Love marks the Heart of the Universe then mud-hole all and the pest of pests this cheap game. We expect God to stand by; and if those who feel a neighbor's sympathy express anything that would be the nearest to a God-Thot.

Howbeit — blessed be neighbors. He that turns aside to greet a little child, and helps him in his toil and play — does an excellent service.

He that wishes his brother to enjoy the good things of earth and is active in bringing his wish to pass — needs no credential for service. He that loves God because He must be beautiful and delightful to know — is a messenger of God.

The neighbor's-road strikes all-spiritual highroads!

—Scoville, Brown & Company's Motor Food Express is a familiar sight on the streets in this section. This firm operates a first-class coffee roasting plant. Their Heart's Delight and Gold Cross Coffees are becoming increasingly popular because they are the freshest roasted coffees sold in this section. Better try Heart's Delight on your next order. — Advertisement 26

Your ads carrying your store-news, should appear as regularly as does this newspaper. If a newspaper omitted an issue now and then—even for so weighty a reason as fearing that it might rain—it would not be a good newspaper.

Milk may be white but it helps put roses in the children's cheeks.

Good food, sunshine and fresh air are mighty fighters against disease.

The refrigerator door habitually left open makes the ice man smile with satisfaction. There's a reason.

The bread box needs a frequent scalding and airing during the summer if you want to keep the bread from molding.

Have a bank account, carry life insurance, and make a will are three good admonitions for the head of the family.

Along the middle of the summer, the white straw hats begin to look dingy. Try rubbing them with cornmeal dampened with peroxide.

"What to Spend for Food," is a booklet which may have some usable suggestions for you. Ask the State College at Ithaca for H. 127.

With so many ways to use them and preserve them, there's no excuse for letting any of the tomatoes from the home garden go to waste.

The summer is the time, naturally, when most housewives begin to wish they had a fireless cooker. Some do not realize they can make a very good one at home. The State College at Ithaca, N. Y., will tell you how.

### U. S. TUBES

The same standard of quality built into U. S. Tires is put into U. S. Tubes.

# Why some men seem to have all the tire luck —

YOU probably know a man whose car is a hobby with him. He knows just why it's the best little old car there is of its class.

And he'll stand up for that car against the world in any kind of an argument.

Year by year an increasing number of men feel the same way about U. S. Tires.

For a while they may try "job lot" stu "bargains," "big discounts" and "rebates."

But usually it doesn't take long for a man to sense the economy of the standard quality tire.

For years U. S. Tire makers have been building quality tires for sane tire users—for the car of medium or light weight no less than for the heavy car.

The tire buyers of the land have responded with a mighty U. S. Tire following.

"Find the U. S. Tire dealer with the full completely lined line of U. S. Tires."
