

Among Our Neighbors

South Hill

June 22 — Now the days will shorten.

The music of our pumping wells has nearly ceased since the recent oil "shut down" went into effect. Not much music in our farmers either since drawing their last milk checks, since milk seems very near the retired list also.

John P. Dean and mother, Mrs. P. A. Dean, motored to Bradford, Pa., Saturday and were guests of relatives in that city until Monday.

Richard McAndrew visited the farm last Friday.

Doris Dean is recovering from an attack of jaundice, which kept her from the week's examinations in her school work at Andover.

D. J. Appier has made a change in hired men.

Miss Mayme Dean is now enjoying her annual vacation, at her home here.

Lynch Bros., were in East Valley Monday, where Chas. Lynch, of Andover, raised a large barn, on his farm in that vicinity.

The monotony of country life is varied occasionally by a speeding auto to over our roads, but the speed of that Ford of Friday evening was suddenly abated when, as usual, it collided with a telephone pole, and the occupants were suddenly transferred to Mother Earth. Rather dangerous sport!

Frank Holmes and family and Mrs. Burgett and child, of Andover, were Sunday motorists over the hill.

Louis Dean spent Sunday in Andover and took in the ball game.

NEW YORK'S DESERT

The extension department of the New York State College of Forestry refers to the waste land in the Empire State as New York's extensive and expensive desert.

A statement just issued by the department says:

"Land that produces nothing is of all-practical purposes a desert. New York is the distinguished possessor of 12,000,000 acres of land from which nothing is derived and on which, for the most part, taxes are paid.

"This land is worth at least \$60,000,000. No sane person would allow \$60,000,000 to remain inactive as a producing factor. Yet ten million citizens of the state are neglecting the opportunity to obtain a vast revenue from this natural resource and to furnish employment for thousands of men and women.

Few persons have any conception of what 12,000,000 acres of land means. That area is almost as large as that contained in the states of New Jersey, Connecticut, Rhode Island and the Hawaiian Islands. New York's waste is suitable only for forest growth and yet our citizens allow someone else to produce the timber that might be grown on it. Last year New Yorkers went in their pockets for the tune of \$5,000,000 for timber that was produced in other states.

The forests hold the key to the future prosperity of the farms and factories to a larger degree than any other natural resource. It is obviously a pressing need to restore the forests and make the desert lands of the state, that are gnawing at the very foundations of our prosperity, again productive."

FARMER AND COWS

ILL WITH ANTHRAX

Harry Losel, a farmer living near Corning, has recently had five cows die from anthrax. Mr. Losel was recently taken ill and a physician who was called diagnosed the case as anthrax. An examination of the blood of the patient, and the blood of one of the cows by Dr. H. E. Elwood at the Stenben County laboratory, proved the diagnoses to be correct.

Tip Top

Several from the valley attended the funeral of Mrs. Grace Langworthy, at Alfred Station, Wednesday.

Mr. and Mrs. W. E. Baker and David Yentzer motored to Silver Springs, Saturday. Miss Esther Baker, who has been teaching there the past year, returned home with them.

Miss Reba McOmber, of Belmont, spent from Wednesday until Sunday at the home of B. S. Baker and other relatives.

Mr. and Mrs. C. E. Greene and children, of Spring Valley, are spending a few days at the home of E. V. Greene.

Jerome Potter is very ill at the home of his daughter, Mrs. A. C. Baker.

Mr. and Mrs. Raymond Helmar, of Hornell, were recent guests at the home of her parents, Mr. and Mrs. A. E. Baker.

Misses Anna and Sophia Mokwa, Solvoy, and B. J. Baker, of Syracuse, spent Saturday and Sunday at B. S. Baker's.

Mr. and Mrs. T. G. Burdick spent Monday evening at A. C. Baker's.

Mrs. C. W. Williams and children of Andover, spent Sunday at F. M. Lee's.

Mrs. Agnes Langworthy and Mr. and Mrs. Frank Langworthy called at B. S. and A. C. Baker's Sunday evening.

Mr. and Mrs. B. S. Baker, Misses Ruth Baker and Reba McOmber and W. E. Baker motored to Hornell Thursday.

KEEPING FIT

Every woman is invited to hear Mrs. Milo Acker, of the New York State Department of Health, speak on "Keeping Fit." Our state institutions are crowded. Why not support and take part in a plan of education that will do much to decrease the amount of suffering and immoral conditions that exist in the lives of many of our communities. The Home Bureau is glad to co-operate in this movement by bringing Mrs. Acker to the county.

Plan to attend one of the meetings:

Monday p. m., June 27th, Whitesville, Civics Club.

Tuesday evening, June 28th, Andover, Home Bureau.

Wednesday p. m., June 29th, Canadea, Home Bureau.

Thursday p. m., June 30th, Friendship, Mothers' Club.

TONIGHT

MR. TONIGHT

to tone and strengthen the organs of digestion, eliminate the excess of fat, improve the complexion, correct the bowels, and generally, pleasantly, mildly, yet thoroughly.

Get a 25c. Box BRUNDAGE DRUG CO.

JUST GOT OVER A COLDT

Look out for kidney troubles and backache. Colds overtax the kidneys and often leave them weak. For weak kidneys — well, read what an Andover woman says:

Mrs. L. W. Theetge, Rochembeau Ave., says: "Last winter my kidneys were causing me considerable trouble and I believe it was all brought on by a cold that settled in the small of my back. My back became awfully lame and sore, causing sharp pains to catch me when I least expected them. I felt nervous and irritable and my kidneys didn't act right. I kept getting worse and finally began to suffer with spells of dizziness. I began to use Doan's Kidney Pills and they soon had me on the road to recovery. It wasn't long before Doan's got down to the seat of the trouble and completely removed every sign of it. For this reason I am grateful to Doan's Kidney Pills and heartily recommend them."
