The drought continued unbroken. Precipitation was confined to scattered showers, which were generally light and of but little benefit. In the eastern counties, however, where the drought had been most severe, rainfall was generally adequate.

Having continued throughout the week with no improvement in yield. Corn is reported to be making good growth in some sections. Over most of the state, however, all crops are practically at a standstill on account of the dry weather.

The following case is but one of many occurring daily in Andover. It is an easy matter to verify it. You cannot ask for better proof.

L. A. Johnson, blacksmith, Main St., Andover, says: "Doan's Kidney Pills are the best and most reliable kidney remedy I have any knowledge of. I can't too highly recommend them. Some time ago kidney trouble had a pretty firm grip upon me. My back ached terribly and every time I stooped over to shoe a horse or do any heavy lifting, a sharp twinge would catch me in my back. The kidney secretions passed too frequently and were highly colored. I was all out of shape, lame and sore all over, until I began to use Doan's Kidney Pills. Doan's worked like magic in my case and soon had me feeling better. It only took three boxes to cure me of the trouble."

**GAME WARDENS ALL SUSPENDED**

None But State Police Now to Watch a Vast Hunting Section

As a consequence of the failure of the state legislature to appropriate funds for the continued maintenance of the state bureau of game protection—a failure said to have been caused by a desire to minimize expenses—this district, and in fact most all of New York State, has dispensed with the services of all its game protectors. At present there is a stretch of territory 72 miles long between Corning and Cuba from which every game protector has been removed. Other sections of the state have been left equally unprotected.

The seven protectors, including Robert W. Witherrall, of Geneva, who for several years have operated in the local district, which includes the counties of Allegany, Steuben, Ontario, Yates and Livingston, have all been suspended without pay on account of no appropriation having been made. Thus has a section of New York State, in which abounds a great deal of game and fish, been left totally without protection, except that which will be furnished by the state constabulary.

Coincident with the suspension of the inspectors, two new companies of state police have been authorized. These two companies will consist of 116 men, who will be expected to take over the responsibilities of the game protectors as much as possible.

Considerable criticism from many quarters has been leveled at the legislature for its alleged indifference to the protection of state game and fish. It has been pointed out that the bureau of game protection burdened the state with very little, if any, expense. It is said that the bureau has been self-supporting thru the revenue derived from hunting licenses and penalties and fines imposed upon violators of the game laws. With the exception of the state police, there will now be no one between Corning and Cuba to know or care whether or not hunters have procured licenses or have violated the law.

The protectors who operated in this district and who have now been suspended include Inspector Witherrall, of Geneva; and Protectors Frank Maloney, of Hornell; George Thomas, of Belmont; Ward Whitney, of Wellsville; Henry Hefferman, of Hammondspor; Merron Packard, of Canandaigua; and Ralph Bacon, of Avon.

**"WHO SPEAKS FOR THE ADMINISTRATION?"**

In his speech opposing the Porter Peace Resolution Mr. Barkley (Dem. Ky.) after quoting President Harding, Secretaries Hughes and Hoover, Senator Lodge and Ambassador Harvey and calling attention to the conflict of opinion among them, won generous applause when he said:

"Who speaks for this administration? Is it President Harding? Is it Hughes? Is it Hoover? Is it Lodge? Is it Knox? Is it Porter? Is it Harvey? The American people are disposed to be patient and long-suffering but they would like to hear some responsible voice on this great subject. It has been six months since the election and more than three since the 4th of March. If it is proposed to ratify the Versailles treaty, why has it not been resubmitted to the Senate? If it is proposed to negotiate a new and separate treaty with Germany, why has it not begun? The American people want peace. We all want friendly relations with Germany. But the American people want an honorable and upright peace, a peace which our fighting men won on land and sea, a peace that will restore our beloved nation to its proper place in the comrad of nations, a peace which will leave no stain of cowardice or betrayal upon our fair escutcheon."

**Convenience and health in the kitchen**

It is often necessary to heat up something in a hurry, in less time than it would take to build up a coal fire. It is then that the convenience of the New Perfection Oil Cook Stove is most appreciated. The heat you want is ready in an instant, in any volume you may need. Remember, the white-tipped flame gives the most heat.

Another convenience for the household is the New Perfection Water Heater. Just as clean, safe and economical as the cook stove. Produces hot water in a few minutes.

New Perfection Oil Cook Stoves are sold in one, two, three and four-burner sizes—with or without warming cabinet, except the one-burner, which has no cabinet. Most housewives like the cabinet top because of its convenience in keeping dishes warm.

By a simple turn of the wick you can obtain heat for either quick boiling or simmering from any one of the burners. And when you are through with it another turn extinguishes the flame and the kitchen is kept cool and comfortable.
