

SATISFACTION

In the basis of every sale we make here... You select your garment with your preference as to model, style, fabric, pattern, color and fit. We don't figure that the extent of our service ends there.

We insist that in addition you must carry away high quality, dependable workmanship and enduring satisfaction, throughout a period of clothes service to meet your reasonable expectations.

The clothes that we have found to most adequately meet these requirements at a moderate price are STEIN-BLOCH SMART, CLOTHCRAFT GUARANTEED and GRIFFON CLOTHES, from \$20 up.

Our two-piece SUMMER SUITS are made of the same standard of cloth with the same guarantee.

DOES NOT BELONG IN CITY

When the Arabian musical instrument, the Argbul, Comes to Town it degenerates.

In Cairo the argbul is played at night in the old city, and on the streets of the underworld, leading its note and interpretation to lore songs that somehow follow when everything else in life has been lost or left behind, writes Robert Hamilton Rucker in Asia Magazine. At an Arabian cafe an old man from the street will play and young men will sing while the coffee is being made. The argbul sings with each and talks with each, sympathizes, understands and seems so earnest as to make one half believe that the young man is singing from his own heart and that the argbul, long accustomed to such confidence, knows it full well.

But, like many of the country bred, it seems to degenerate when it comes to town. It falls upon evil ways; it sings of love to the loveless; it hovers about the low cafes. Its friend, the tabla—more pretentious, and perhaps more astute—changes its name when it comes to town and does not appear alone at night in dark, unfrequented streets. It is known as the darabkeh, and is seen in the high-class cafes where favorite dances to the music it brings. It has more rhythm than melody; much volume but little feeling. It talks from the head and sings to the feet.

But the argbul is all sentiment and sympathy. It is the desert; its home, we have often listened there on the vastness of the sandy plain and the stillness of the starlit night.

ENDS SHOULD BE VARNISHED

Agricultural Department Tells How to Prevent Deaf From Sticking on Damp Days.

A door which sticks to the frame every damp day is not conducive to unruffled feelings on the part of those who use it. The forest products laboratory of the United States Department of Agriculture at Madison, Wis., has made public a method which obviates this difficulty.

Wood specialists there say that the fact that the top and bottom edges of a door are practically always left unfinished is largely responsible for its troublesome habit of swelling and shrinking. The exposed ends of the vertical stiles give the most bother, because wood picks up or gives off moisture more rapidly through surfaces cut across the grain than through those cut parallel to the grain.

If the doors in a house are to shut easily and fit tightly, it is important that their top and bottom edges be protected by paint or varnish. If it is necessary to red the door after it is hung, the freshly exposed surface should be refinished at once.

Used Nature's Gifts.

There are no indications that in remote time either oil or gas was put to much practical use as modern people understand that term, but there is little doubt that priests of the fire-worshipping cult which flourished in old Persia made "good things" out of the phenomena. Not far from Beku are the ruins of a temple of the cult which is believed to have been in existence for more than 2,500 years. Tower beacons and altars are provided with channels concealed in the masonry, which demonstrate that gas-fitting is not a craft of modern birth. These channels "led" from "squares" in the earth which, once furnished natural gas. To this temple came pilgrims from all parts of the East as late as the eighties of the last century. Besides the walls of the temple today stands a modern refinery, furnishing an emphatic contrast in the old and new uses of Nature's gift of oil and gas.

Exaggerations.

"America is a wonderful country," said the distinguished visitor as the ship was landing. "Yes," ventured the intrepid interpreter; "but it isn't nearly as extraordinary as you gentlemen from abroad make it appear when you write your first impressions of it."

FOR MEMBER OF ASSEMBLY

I desire to inform the Republican voters of Allegany County that I am again a candidate for the nomination for Member of Assembly to be chosen by the September Primaries. I trust that my record in the Legislature has been such that the Republican voters will again nominate me, and the voters of the county again elect me to represent Allegany County in the Assembly of 1922. I appreciate the confidence of my constituents in their electing me to this important office for six terms, and assure them that if re-elected I will endeavor, as I have always done in the past, to represent them and carry out their wishes to the best of my ability.

Yours very truly, W. L. DUKE, JR.

With the exception of mutton, eastern wholesale fresh meats prices are substantially lower. Lamb prices from \$1.40 to \$1.75; veal \$2 to \$4; beef 50c to \$1.25; pork loins generally \$1. Mutton practically unchanged. July 1 prices good grade meats: Beef \$12.75 to \$14.50; veals \$13 to \$15; lamb \$13 to \$23; mutton \$10 to \$15; light pork loins \$17 to \$20; heavy loins \$14 to \$16.

Dairy Products

Butter markets firm thruout the week under active demand for current requirements and for storing. All grades in demand and a larger quantity of medium grades could be moved without difficulty. Markets closed firm with price tendency upward. Closing prices 92 score; New York 35 1/2c, Chicago 35c, Philadelphia 36 1/2c, Boston 37c.

Cheese markets have held steady but show little change. Hot weather beginning to tell on quality. Production decreasing, in some sections. Prices at Wisconsin primary markets average; Twins 14c; daisies 14 1/2c; double daisies 14c; Longhorns 15c; Young Americas 15 1/2c.

WOMEN GIVE OUT

Housework is hard enough when healthy. Every Andover woman who is having backache, blue and nervous spells, dizzy headaches and kidney or bladder troubles, should be glad to heed this Andover woman's experience:

Mrs. Fred Taylor, Rochambeau Ave., says: "I am a very firm believer in Doan's Kidney Pills and can't recommend them too highly. About once a year, usually in the spring, I had an attack with my kidneys. At such times my kidneys became weak and irregular in action and I suffered from severe backaches, dizzy spells and attacks of blurred sight. My hands, feet and ankles would swell, due to the weak condition of my kidneys. I have also felt worn-out and listless. At such times I have resorted to the good old reliable Doan's Kidney Pills and they have never failed to remove every trace of this complaint."

THE STORE OF QUALITY

A clean kitchen lightens each day's work

WHAT a joy it is to work in a kitchen that is easy to keep spick-and-span all of the time! The average housekeeper spends a goodly part of every day in the kitchen. Cleanliness and contentment go hand in hand.

Because of its simple construction, the New Perfection Oil Cook Stove never becomes a collecting corner for dirt. There is no coal or wood to clutter things up, no ashes to take care of. Every part of it can be reached easily with a duster. It stands well up from the floor, you can sweep under it and behind it.

The long, blue chimney conducts all the clean heat from the white-tipped flame directly to the utensils or oven. By using all of its heat to cook with, instead of radiating it about the whole room, the New Perfection makes possible a cool, comfortable kitchen.

You use the New Perfection Oil Cook Stove only when you need it. It is so easy to light and regulate that when you're through cooking, you simply put it out, thus saving much fuel besides keeping the kitchen cool. Over three million are in use today.

The New Perfection Water Heater is another convenience for the housekeeper. Supplies hot water abundantly at a very slight cost. The oil cook stoves are made in two, three and four-burner sizes, with or without warming cabinet; also one-burner stove with no cabinet. Leading dealers everywhere.

"Oh Boy! Ain't this the life!!"

I LIKE my job BUT DAYS do come WHEN SKIES are blue ABOVE THE city smoke AND BREEZES stir THE PAPERS on my desk AND THEN I think WHAT I would do IF I were boss. I'D OPEN shop AT TWELVE o'clock AND CLOSE at one WITH ONE hour off FOR LUNCH, and I WOULD GET old Sam TO RUN me out IN HIS big stir AND DROP me off UNDER A greenwood tree BESIDE A babbling brook AND THERE I'd lie.

AND EVERY once IN A while ROLL OVER OR MAYBE sit and think BUT MOST likely JUST SIT AND EVERY once IN A while I'd light ONE OF my Chesterfields AND OH BOY I GUESS that wouldn't SATISFY!

COMPANIONSHIP? Say, there never was such a cigarette as Chesterfield for steady company! Just as mild and smooth as tobacco can be—but with a mellow "body" that satisfies even cigar smokers. On lazy days or busy ones—all the time—you want this "satisfy-smoke."

Have you seen the new AIR-TIGHT tin of 50?
