Time Has Changed Methods IN Money Marters

Not so many years ago, men carried long wallets and in many instances considerable cash, or kept money hidden in their homes at much risk of loss. Styles in pocket books have changed.

To-day, men careful with their money, keep their working capital and surplus funds in the bark, subject to their personal check, so that it will be safe and at the same time instantly available for use. They carry a bank check book in place of the long wallet, which plan has decided advantages in addition to safeguarding their funds.

Last year, against the protests of every moral organization of the state, our Assemblyman voted to practically legislate our Sabbath day of relations in the large cities by voting in favor of the Dickstein Bill which would have allowed the Jewy, who own most of the large city stores, to run them on Sundays. Because of the unexpected publicity I gave him last fall, he voted against it this year, but introduced instead a much more lancent appearing measure which with a few amendments would achieve the same result.
