HAVE ITS OWN WEBSITE
Nov. 7-12 - See Ad for National Campaign for Emphasizing Value of the Home Town Publication

A nation-wide "Subscribe for your home town paper week" which will be participated in by this community as well as thousands of similar communities the country over will be observed Nov. 7-12. The purpose of the campaign is not alone to induce persons who may not be subscribers to the home paper to "sign up", but for emphasizing the service which the 10,000 and more country weeklies, to say nothing of the small city dailies, are rendering to community and national life.

New Movement Started
The movement for a "home paper week" was started several years ago by a country editor in this state, but at that time he was unable to get enough persons back of it to make it go. Recently, however, E. T. Porter of Salt Lake City, who has done perhaps more than any other one man to bring home to publishers the need of raising their costs and charging not only cost but a reasonable profit, if they are to continue in business and if the small towns are to have their papers, launched a "clean up day" for country print-shops which was such a success that he put forward the idea for a "home paper week."

Plan Gains Support
This was immediately taken up by editorial associations, concerns which furnish news and feature services to country papers, trade papers, state colleges of agriculture and other agencies, with the result that nationwide participation in the campaign is already assured.

The intention is to keep personalities and local matters out of the campaign. Publishers in devoting space to it are not boosting their own individual businesses so much as they are the country newspaper profession in general, with a view to bringing home to people the dignity, usefulness and importance of the small home papers.

NO POTATO BLIGHT
State Expert Says Allegany County Potato Crop Better Than Northern Counties
Several farmers around Andover have had their potato fields inspected during the past week by Mr. H. H. Clum, a representative of the Plant Disease Department of the State College of Agriculture. This inspection is done thru the co-operation of the Farm Bureau and the State College with the idea of locating and developing sources of good seed potatoes. An effort is made later on in the year to assist these men in selling the seed which is passed in these inspections. Three inspections are made during the season. The following men have fields which passed the first inspection: Wallace Boyd, Wallace Briggs, M. E. Gavin, W. W. Pingrey and C. A. Slaight.
Mr. Clum makes the general statement in regard to the potatoes in Allegany County that they look much better than they do in most of the northern counties of the state and that so far he has found absolutely no late blight in the county. Also the work of the insects has been less severe this year than usual.

PAINT AND PAPER HELP SPRUCE UP THE HOME
Good Design and Color are Found in Inexpensive as Well as Costly Wall Coverings
"We must do a little papering and painting this fall; we simply can't wait any longer."
This is what more than one housewife is saying as autumn approaches, and it will cheer her to know that many of the new papers in good designs and colors are inexpensive. The colors and patterns which will harmonize best with the furnishings of the rooms should be chosen.
Color of Great Importance
Perhaps color is of first importance; harmonious color will cover a multitude of sins in design, while no amount of good design will atone for discordant color.
For the small, dark rooms light colors should be selected, for they will bring in more light, say the home workers at the New York State College of Agriculture. Plain papers or small patterns will make the small room seem larger. A covering of soft, creamy yellow brings the appearance of sunshine in that north room, whereas a gray or gray-blue will make it cold and cheerless.
Dark Tones for South Rooms
Rooms on the south in general need cool and dark colors to temper the light. Rooms that are comfortably lighted and sufficiently sunny are open to a variety of color treatments.
Strong or bright colors are not appropriate for use in large masses, such as wall or floor coverings. Strong colors may be used to add a note of interest, or to accent a color scheme.
The various tones of brown, tan and buff, and also the grays, have been found satisfactory for wall coverings. They do not soon become tawdry and they invite the wall coverings, their shades, and activities that take place in the room.

TOLEDO BLADE
AMERICA'S HOME AND FARM NEWSPAPER
Popular in Every State
You should be a reader of this greatest of all National Family weeklies - a true exponent of Americanism and American Ideals. Its strength lies in its dependability. Agriographs
Timber is the one best bet to make poor land pay a profit. It's slow but sure.
Paint and labor both cost money, but decay in the long run costs more than both.
Be thou diligent to know the state of thy flocks and look well to thy herds. - Prov. 27, 23.
Uncle Ab says: "The cheerful chap who helps others helps himself even more; and the poor cuss who grouches alone loses more than his neighbors lose."
People like it so much the State College of Agriculture has had to have another edition - F. 137, on "The Dairy Herd." A copy is yours for the asking.
The farm: Best home of the family, main source of natural wealth, foundation of civilized society; the natural providence. Inscription in Union Station, Washington, D. C.
A preliminary announcement of the fourteenth federal census indicates that January 1, 1920 there were 536,171 horses, 2,144,244 cattle, 578,726 sheep and 600,560 swine on the farms of New York.

Homespun Yarn
The skilled housewife will wash, polish and label her jars of canned foods.
Aunt Ada's Axioms: "Children are great imitators; parents should be good examples."
A bulky magazine rolled and tied with a string helped out one housewife who didn't have a sleeve board handy on ironing day.
Next winter some folks will be taking their tone from bottles and some will be taking it from cans - of vegetable etables put up this summer.
Fruit pies with soggy undercrusts are unknown to the housewife who bakes the undercrust slightly before she puts in the filling and adds the upper crust.
The paper ice cream pails which are usually thrown away are worth saving. Rinsed out well with hot water and quickly dried they are just the thing for packing a small lunch.
You've heard about a community survey; how about a household survey? If you look the rooms over with a critical eye maybe you'll find that the furnishings aren't being utilized to best advantage.
Your next Classified Ad, repeated a few times, if that should be necessary, should be the sort of tenant you've been looking for. - sell it advertising

JUST OVER A COLD?
Look out for kidney troubles and rheumatism. Colds overtax the kidneys and often leave them weak. For weak kidneys - read what an Andover woman says:
Mrs. E. W. George, Rochester Ave., says: "Last winter my kidneys were causing me considerable trouble and I believe it was all brought on by a cold that settled in the small of my back. My back became awfully lame and so, causing sharp pains to catch me when I least expected them. I felt nervous and irritable and my kidneys didn't act right. I kept getting worse and finally began to suffer with spells of dizziness. I began to use Doan's Kidney Pills and they soon had me on the road to recovery. It wasn't long before Doan's got down to the seat of the trouble and completely removed every sign of it. For this reason I am grateful to Doan's Kidney Pills and heartily recommend them." 60c at all dealers. Foster-Milburn Co. Mfrs., Buffalo, N. Y.

Camels are made for Men who Think for Themselves

Such folks know real quality - and DEMAND it. They prefer Camels because Camels give them the smoothest, mellowest smoke they can buy - because they love the mild, rich flavor of choicest tobaccos, perfectly blended - and because Camels leave NO CIGARETTE AFTERTASTE.

Like every man who does his own thinking, you want fine tobacco in your cigarettes. You'll find it in Camels.

And, mind you, no flashy package just for show. No extra wrappers! No costly frills! These things don't improve the smoke any more than premiums or coupons.

But QUALITY! Listen! That's CAMELS!

Camel
