IDEAL WEATHER IS AID TO HARVESTING

The past week was one of nearly normal temperature, altho at the close decidedly warmer weather prevailed, according to the summary of weather and crop conditions for the week ending August 30th, sent out from the Ithaca office of the Weather Bureau. There was practically no precipitation, and conditions were ideal for harvesting operations.

Grain is now mostly in, and threshing continued through the week. Silo filling was rushed with an excellent yield of fodder corn general. The bean harvest is in progress. Fall plowing is well in hand, and seeding begun; these operations were delayed, however, in some sections on account of the dry soil.

Corn continued to improve and is bearing well; reports generally indicate that its condition is considerably above the average. Buckwheat made excellent growth, but requires cooler weather to fill well. Potatoes are now in need of rain for continued growth, but the dry weather has checked blight development; the condition of the crop is reported to be good.

Of every one hundred of to-day's shoppers, seventy-five visit the stores whose ads have made the strongest purse-appeal to them.

RESULT OF HOME BREW

Somebody sent the editor of a Missouri paper a few bottles of home brew; the same day he received for publication a wedding announcement and a notice of an auction sale. Here is the result: Wm. Smith and Miss Lucy Anderson were disposed of at public auction, at my farm one mile east of a beautiful cluster of roses on her breast and two white calves; before a back-ground of farm implements too numerous to mention in the presence of about 70 guests, including two milk cows, six mules and one bobbed. Rev. Jackson tied the nuptial knot with 200 feet of hay-ropes, and the bridal couple left on one good John Deere gang plow for an extended trip with terms to suit purchasers. They will be at home to their friends with one good baby carriage and a few kitchen utensils after 10 months from date of sale to respectable parties and some chickens. — The Washington Tribune.

LINKED WITH GLORIOUS PAST

Town of Steinmanger Within Territory Once Important Part of the Old Roman Empire.

Perhaps it was not without deep sentimental reasons that former Emperor Charles of Austria-Hungary chose the town of Steinmanger—to the Hungarians, Szombathely—as a place from which he hoped to receive the acclaim of his former subjects as their returned ruler, says a bulletin from the Washington headquarters of the National Geographic Society.

It has been the cherished policy of the Hapsburg rulers of Austria-Hungary to rejuvenate the old "Holy Roman Empire," the Frankish and later the German union which claimed to be the heir to the power and overlordship of Rome. The affiliations of what was Austro-Hungarian territory before the World war, with the old Roman empire, were perhaps closer through Steinmanger than through any other town. The present town is in the site of the Roman Sabria, which was the capital of one of the chief divisions of Pannonia—the name given by the Romans to the province which covered the heart of modern Austria-Hungary.

Thirsty?

During these sweltering days we all feel more or less like a small Sahara Desert and our inner being cries out for something that will satisfy that thirst which is always with us the year around, but is emphasized very emphatically this weather.

We have found that something. After more than a year of concentrated study and with much diligent research we have at last produced a drink that will satisfy the most critical judge or lover of good brew. This brew carries the name of XXX-A (pronounced three e x y) and is all that it should be. It is a cool and refreshing drink that has been scientifically made, consequently it is WELL AGED, pure, pasteurized, packed in sterilized bottles and IT HAS THE TASTE.

XXX-A is a pure malt and hop brew that we know will please your taste and satisfy your desires. A case is ready for you at your dealer.

XXX-A is made and sold by

Cheese trading very slow the past week and primary markets prices so high that sales were very limited. Demand from southern buyers larger than usual. Prices at Wisconsin primary markets range 18 1/2c to 19 1/2c and at distributing markets 19c to 22c.

Livestock and Meats

For the first time since August 1, Chicago hog prices show substantial advance over a seven-day period. The advance ranged from 25c to 70c per 100 lbs. Beef steers ranged from 35c lower to 15c higher. Butcher cows and heifers gained 5c to 50c; feeder steers practically steady. Veal calves advanced \$1.50 to \$2.00 per 100 lbs.

When you come right down to reason, what is there to "discount" tires —

THE next time a friend comes to you all excited about some wonderful tire bargain—ask him how much value he ought to get for each dollar of tire money.

It's astonishing that any car owner today should not know all the tire service he is entitled to.

Now how to check up between the economy of par quality on one hand—and big discounts, surplus stocks, discontinued lines and rebrands on the other.

For two years U. S. Tire makers have been telling the American people all about tires.

They have laid open the tire business from every angle.

They have always led the fight for better tires.

They have consistently maintained quality first standards with certain economy for the tire buyer.

They have established 92 Factory Branches all over the country. Perfecting U. S. distribution so that you get a fresh, live tire every time you buy a U. S. Tire.

So when a man once decides on U. S. Tires he knows what he is getting in quality—service—economy.

In support of his own judgment he gets the pledged word and reputation of the largest and most successful tire concern in the world.

A sound reason for the fact that you see more U. S. Tires on more cars than ever this year.

"You get a fresh, live tire every time you buy a U. S. Tire."

The U. S. CHAIN TREAD

One of the few tires of which it may be said that they deliver economy year in and year out and tire after tire.
