SATURDAY BAD DAY ON MOTORISTS

Six Automobile Accidents in Andover and Vicinity Saturday. No One Ser-

Last Saturday was a hard day on intomobiles, there being als accidents in the attention and early evening.

The first three happened between irre and Tip Top all about the same inc.

As Welman Baker, of Tip Top, As Welman Baker, of Tip Top, was driving toward this village a car containing Affred parties came up behind him and in attempting to pass caught the hub of his front wheel with their rear wheel throwing the Baker car into the ditch where it turned turtle. The top and windshield were completely destroyed, and the car otherwise banged up. No one was seriously injured. Miss Esther Baker was driving the machine.

About the same time the Ford ton truck, belonging to the Empire Gas & Fuel Co., and operated by Fred Stebbins, caught fire while Mr. Stebbins was hauling pipe to Tip Top

Stebhins, caught are while, Mr. Steb-bins was hauling pipe to Tip Top where the Gas Co. is now drilling. The truck would have been complete-ly destroyed had it not been for our chemical truck which made a quick trip to the scene and soon exting-nished the flames. The entire front of the truck, including the cab, was

destroyed.

A Cole eight sedan, driven by Mrs. Eiton Harder of Welleville, also caught fire while Mrs. - Harder, accompanied by a party of ladies, were driving toward Hornell. The flames were extinguished by a hand pyrene, however, before much damage was done to the machine.

nt six o'clock in the evening ther series of three accidents to added to the day's casualties.
A lady driving a large touring car the down Elm Street and failed to

came down Elm Street and falled to make the turn on to Main Street, maning over the curh and striking a telephone pole. The damage to the car was slight, but she put sharge electric transformer, that was fastened to the pole, out of commission, and left the willage without electricity until a new one could be installed. About 30 minutes afterward A. M. Mingus, of South Hill, struck the same old telephone pole, on the Orvisaner, that has wereked several ars on previous occasions. The ont wheel, axle and radiator of

ieft front wheel, axle and radiator of his Buick roadster was baddy smashed. Mr. Mingus escaped with several bad cuts on his face.

Mr. Mingus escaped with several bad cuts on his face.

During all of this, a party from corning, enroute for Olean in a "Stearms-Knight" chummy roadster, were having their troubles if the declar just east of the village. The stripping of their gears while zig zagging about in the upper part of the detour was the cause of their discomfort. After the feasts let loss of the convex, should not for a moment, or

This was the busiest day in the line of automobile troubles this village has ever seen, but the most marvelous part of it was that out of the six accidents no one was sectional injured.

Every member is urged to be presat at the next meeting on Monday, it 3rd. A question of importance to be acted upon.

The fall season is now on and

The first meeting of the Athletic Association was held on Thursday afternoon, at 4 cclock. New officers were elected for the coming year. Maxson, Crandall was elected president; Emily Clark, secretary; and Miss Elizabeth Latimer, treasurer. Means were discussed for raising money to pay the association's indebtedness. It was decided that each student should pay as dues 50c. This would clear up all debts and leave a little money in the treasury.

The Beta Mu held their first meeting, at the school house, Thursday evening.

the detour was the cause of their dis-comfort. After the gears let loose, the man at the wheel lost control of the machine, which backed over a book. The state of the performance of his duty. violation of the compulsory ed tion law are to be handled in

violation of the compulsory education law are to be handled in the
usual way.

If a father leaves home at any time
for any reason whatever and takes his
child of compulsory school age with
him, he must place such child in
school during his absence and should
be notified of that fact and if he
does not do this then he is a violater
of the law and should he arrested and
proceeded against when he returns
to the place of his legal residence.

A parant, who wants to take his
child out of school for a month on an
anto trip should be given to understand that he can not have his child
out of school in this manner, and if
he does not head the warning, he
should be arrested and prosecuted.

Now, I do not doubt but that you
will inderstand what constitutes a
violation of the compulsory education law, and the proper procedure to
take against a parent who pegaiss in
thus violating it. There is nothing
new about this. The law has been
with us since 1895 and cases cited are
to be handled in life usual way.

Yery truly yours,

Jamea D. Sullivan.

STATE DEMOCRATS OFFICIAL VISIT

Harriet May Mills Prophe-sies the Re-election of Al-fred C. Smith as Governor in 1923

into nothingness.

"The star of democracy," she said, comoves in its orbit, and ever forward. It many women have enrolled under the star because they believe such a banner makes human welfare permanent. They believe the Democratic party stands for progress."

Miss Mills said she deeply appreciated her selection as permanent chairman, as an indication that women had taken a political journey as long as the one Ralph Waldo Emersion referred to when he said. "It is a long journey from the oyster to the plate."

The convention failed to insert a "wet" plank in the state platform, as had been predicted in some quarters. Alfred C. Smith; former governor and temporary chairman of tion, was given a big ovation and hailed as the next governor.

The principal planks of the plat

Opposition to the "tendency of govtailment of personal liberties;"
Sentiment for ropeal of the "Miller transit act," and advocating "non interference with municipal func

Repeal of the law providing for

Repeal of the law providing for nominating conventions and a return to the direct primary; Consolidation of water power facilities "in the interest of the citi-kens of the state as opposed to priv-ate interests;"

Equal representation with men on political bodies for women:

Establishment of minimum commission.

The platform included a dea tion of the Miller administration on the ground that it had "destroyed the constitutional right of municipalities to make contracts with public service corporations and that while not mo lasting. Republican city administra-tions, it had harrassed the Hylan ad-

tions, it had harrassed the Hylan ad-ministration of New York City by legislative committee investigations at the expense of enormous sums of the people's money."

It also denounced the "inaptitude and inscrivity of the Republican con-gress in Washington," and the "weak and webbling policy," which the plat-form blamed for delayed fecovery, economically, from the effects of war.

NAME SCUDDER SUPREME OFFICIAL

Sir Knights of Maccabees to Hold District Meeting, at Hornell, Supreme Commander Markey Coming

Mew York, Sept. 26. — Election of Alfred Es Smith as governor of New York in 1923, was predicted to-day by Miss Harrlet May Mills, of Syractic, permanent chairman, at the opening of the Democratic state convention to-day.

Her declaration ended a eulogy of Markey, of Detroit, Mich, for hirty years the Supreme Commander of Mr. Smith's services to the state, in discussion of the declaration ended a eulogy of a worker, man or woman, norie to help the unfortunate dependants, in the interest of children, failed to receive his active support."

When he is again governor, 1923, we shall once more see the human side of legislation made prominent," she declared.

Miss Mills referred to the Republican national administration as a comet flashing brilliantly before election and then disappearing altogether into nothingness.

"The star of democracy," she said, "moves in its orbit, and ever forward Many women have enrolled under the star because they believe such a baner makes human welfare permanent. They believe the Democratie - party stands for progress."

Miss Mills said she deeply appre-

US A SMILE A WEEK

Bob Adams, a contributor to the Country Gentleman and other well-known perfectible, hereafter will contribute a mose poem every week to Tae And-over News, under the heading "Rude Ruyat Rhymen." The

over News, under the heading "Rude Ruyat Rhymes." The News is one of a syndicate of some 40 New York State country weeklies for which Mr. Adams is writing these poems exclusively. *Everyone is familiar with the "Lineless. Thymnes" of Walt-Mason which for years have been features of hundreds of daily papers throut the country. Mr. Adams is just as facile in rhyme and original in humor as is "Uncle Walt."

Readers will, it is confidently expected, watch eagerly each week for the Rob Adams poem. The first one appears this week. Read it.

Our Kick Column

J. Harvey Backus, Editor Andover News,

Dear Sir

Dear Sir:

In reply to your editorial invitation-to your readers to tell what Andover needs most, kindly allow me to suggest that the greatest need at the present time is some good, pure, water for household use.

We have been having an epidemic of stomach and bowel trouble in Andover for the past few weeks, and it will-be a hard matter for any one to persuade Andover sufferers that the filthy, tepid drinking water that we have been having doled out to us in teaspoonful doses the past summer, is not directly responsible for this illness.

It is all very well to allow.

THE LIGHT OF THE WORLD'*

he Great Pageant at Jamestown In Connection The With State Sunday School Convention

Sunday School workers from thirty nations witnessed in the Innerial Theater at Tokio, in connection with the World's Convergion last October, the presentation of the pageant "The Light of the World" especially waiten and prepared for that occasion by Professor H. Augustine Smith, of Bostón.

Professor H. Augustine Smith, of Bostón.
Dr. Smith personally conducted the pageant at that time. He will reproduce the pageant, as given at Tolionin connection with the sixty-sixtin New York State Sunday School Conducter of the State Sunday School Conducter of State State Sunday School Conducter of State State State State Sunday State State State Sunday State State State Sunday State State State Sunday State State Sunday State State Sunday State State Sunday Sunday State State Sunday State State Sunday State State Sunday Sunday State State Sunday Sunday

sylvania.
Wednesday and Thursday morning are given over to specialization in stitutes conducted in ten sections of three periods, presenting in all more than sixty specialized treatments of than eaxity specialized creatments on the several phases of Sunday Schools work by experts in their chosen fields. Every Sunday School in New York State is invited to send delegates. Credential cards can be secured with

teaspoonful doses the past summer, is not directly responsible for this illness.

It is all very well to allow our incommendation of the past of the people of what justly belongs to the people of what justly belongs to the people of what justly belongs to the mark of all, just to save our factories and plants from drilling water when we have sufficient. You will put in meters and yells for themselves or buying an occasional new hoiler.

We have it said on the street that if you will put in meters and yell the water, by their reading we will have water sufficient immediately. Then why, in the name of the people for the weater of the summer is not incommendated by the water is not only to the people of the use of this filty stuff we now at reusing (when there is enough so we can get a drink) then there might be water enough left for the surviving half.

Our water system has been built over a quarter of a century, and in the water into the gravel instead of carrying it into the buildings. If one of our business men, should take pay for merchandise and of carrying it into the buildings. If one of our business men, should take pay for merchandise and of carrying it into the buildings. If one of our business men, should take pay for merchandise and then not make an effort to see that we get what we have paid of carrying it into the buildings. If one of our business men, should take pay for merchandise and then agained the water theore we get it and then not make an effort to see that we get what we have paid for any community. Andover has had also refuse to fire the subject of the lead in greatest need for Andover was at a should take pay for merchandise and then again and then not make an effort to see that we get what we have paid for any community. Andover has had the very best and I don't believe hut what it is still possible for us to have a return to these good old times if rightly manged. Water is of first importance to the health of our pepple, and none are known in the very lead of the people is the people w
