

SAFETY
 Lies in waiting for your funds in the way that will afford you the best protection. Money carried on the person or hidden about the premises makes a fine haul for burglars, but does not help you.

THE SECURE WAY
 Is to carry only a check book and a pass book — representing money secure in our bank, yet which you can draw or pay out with a few strokes of the pen when you wish. Or you may carry a pass book recording a savings account that you are building up for future enjoyment.

Check books and pass books are worthless to burglars
