

SAFETY

Lies in caring for your funds in the way that will afford you the best protection. Money carried on the person or hidden about the premises makes a fine haul for burglars, but does not help you.

THE SECURE WAY

Is to carry only a check book and a pass book — representing money secure in our bank, yet which you can draw or pay out with a few strokes of the pen when you wish. Or you may carry a pass book recording a savings account that you are building up for future enjoyment.

Check books and pass books are worthless to burglars

A BIG CARLOAD OF TEA

Scoville, Brown & Co. Unload a Carload of New Crop Silver Leaf Tea.
(From Monday's Daily Reporter.)
On Friday of last week Scoville, Brown & Company unloaded a carload of New Crop Silver Leaf Tea which they imported from Japan. It came from Vancouver direct to Wellsville. The car contained 467 chests. The gross weight of the tea was slightly over twenty-four tons, and the freight from Japan on the shipment amounts to \$1,194.00. It is needless to say the bill for the car is a good sized one. Fortunately, the market on Japan teas is very much lower than last year. The quality this season is splendid. Much of the tea is put up in half-pound and one-pound packages, and it will be distributed thru the grocers in this section of the country so as to reach the consumer at a moderate price.
Scoville Brown & Company have been importing and distributing Silver Leaf Teas for a good many years, and probably no tea is as well known or enjoys as large a sale in this section of the country as Silver Leaf. Advertisement.
