WEAK BLOOD IS A REAL BARRIER

Growing Children Often Need Gude's Pepto-Mangan

Some children grow too quickly - it saps their strength. They lapse into careless, deauntly habits, or develop a shrinking attitude. Their faces look pinched. The blood becomes overtaxed by too rapid growth; and poisons from the assimilated take the place of strength-giving red corpuscles in the blood. Red corpuscles are those little particles that swim in blood and give it its color. Gradually that child loses interest in its play. Poor blood needs the building that the Iron in Gude's Pepto-Mangan gives to weakened blood. Gude's Pepto-Mangan enriches the blood by increasing the number of red corpuscles, and restores the blood by driving out the poisons. When the revived blood gets to work, the appetite becomes what a growing child's ought to be. Your druggist has Gude's Pepto-Mangan in liquid or tablet form. The name "Gude's Pepto-Mangan" is on every package. Advertisement.

GARDNER & GALLAGHER Men Want Their Money's Worth That doesn't necessarily mean mere cheapness - which is quite the wildest extravagance. Money's worth means a fair price to start with, and the right style, in the right pattern and the right cloth. If clothes deliver these things a fair price is cheap. We've developed our fall lines according to that standard. Our tailors at FASHION PARK worked with us and for us. The co-operation has solved the price demand in the right way.
