HEN winter storms come, a touch of extra heat is often needed. On the side where the wind blows it's nearly always drafty and chilly. This winterwherever the wind searches-put a Perfection Oil Heater in its path. It will keep the whole room up to "comfort point" temperature.

The cost of this extra heat is small,

and its use enables you to keep a slower fire in the main heating plant. In many instances the Perfection will soon pay for itself by the coal it saves.

Millions of homes use Perfection Oil Heaters. Ask your dealer to show you one.
