"God has ever been calling humanity. Past and present cannot be separated. Rightly understood the past is part of the present. But for a living faith there can be but one starting-point, the present. Generation after generation has been taught that God was surely in the past, and has timidly inferred that perhaps He might be in the present. God is certainly in the present, and the inference is that He must have been in the past. We find God to-day in the experience of goodness, truth and beauty. We find God in the church, endeavoring to transform the world. We find Him in our own hearts, drawing us nearer to Himself."

We welcome YOU to all the services our OUR church.
