

## TWO INCOMES

WHEN John D. Rockefeller was a struggling young book-keeper in Cleveland he laid the foundation for his now great fortune by putting into operation a very old but positive law of success. He wasn't satisfied with a \$9 per week salary. He naturally wanted more, but he had only one pair of hands and one head. So he saved AND PUT MONEY TO WORK for him--his savings. Then he had two incomes--instead of one.

Two incomes are better than one. Your wage, salary or crop profit may be fine, but when money comes to you in the form of interest--as well as the other--then you are on the road to a comfortable old age.

TODAY is never too late to start an interest account
