A PROGRESSIVE FAMILY NEWSPAPER, FOR ALLEGANY COUNTY PEOPLE, IN POLITICS INDEPENDENT, BUT NEVER NEUTRAL

VOL. XXXVIII. NO. 14.

FOR THE WEEK ENDING FRIDAY, APRIL 6, 1923.

\$2.00 the Year  
5c the Copy

## WHAT'S THE WEATHER TO BE TOMORROW, CENTRAL?

### U. S. Weather Bureau Beginning Sending Forecasts to News April 1st

The Andover News again began receiving the weather forecasts from the Department of Agriculture Weather Bureau April 1st.

These forecasts of the weather are sent each year during the summer season for the use and benefit of our farmers, that they may be warned twenty-four to thirty-six hours in advance of what they may expect from the weather and make their plans and arrangements accordingly.

This does not imply that others, not farmers, should refrain from taking advantage of these forecasts. The more this service is used by everyone the better the Department of Agriculture and the Andover News will be pleased. The more this information is spread the greater the amount of good it will accomplish and this is what it is issued for.

A close study of the forecasts last season proved that they were from 85 to 90 per cent. correct, and a number of our farmers were loud in their praise of the service and expressed themselves very emphatically in telling the editor of the benefits they had received from a thorough use of this service—and the money they had been able to save by heeding the warnings given.

The Allegany Mutual Telephone Company very kindly act as distributors of these weather forecasts for the Andover News, thus saving us much time in answering the telephone in response to inquiries for the weather, and also save themselves one connection every time a request for the weather is desired.

Just call central at any time after 11:30 a. m. and ask for the weather and you will receive the information gladly without any delay or annoyance to anyone.

People who get in the habit of calling for and using these weather forecasts will save themselves much time and money during the summer season. They are yours for the asking. Use them.

## LADS BREAK INTO COBB SCHOOL HOUSE

### Trustee Complains Kerosene Put Into Drinking Cups; Do Much Damage

Sunday, March 25th, a party of Andover lads broke the lock on the school house door, in the Cobb District, entered and enjoyed themselves in a manner that was only pleasant to themselves.

Ink bottles and drinking cups were filled with kerosene and other supplies taken or destroyed.

Several times before this year, the school house has been entered, but never before have they used it so freely.

These lads are known and parents, whose boys were roving around uncared for that afternoon, might do well to find out just where they were on this afternoon.

If the act is repeated steps will be taken to put an end to such lawlessness.

MRS. VIVIAN SWEET, Trustee.

### AN EASTER RHYME

It is a very pleasant thing, the story that Christ rose in spring; for men had seen, as still we see, the life arise in bush and tree, seen silent herb and vocal nest alike with new creation blest. There is no death; beneath the snow the tides of life forever flow, a little checked, a little spent, but waiting still in deep content, till God shall speak once more to earth his magic word of yearly birth. Though blown from sin or sorrow's pole, chill winter storms sweep o'er the soul, though buried deep and half congealed, its warmth of life is all concealed, and only outward death revealed; yet close at hand a glory waits; God's spring is ever at the gates. Let me awake and share the power which moves alike in man and flower. Who triumphs over loss and pain to labor for another's gain, within his heart is risen high the soul of Him who cannot die.

—BOB ADAMS

### MARY J. ATWOOD

Mrs. Mary Jane Atwood, widow of the late Amos B. Atwood, died at the family home on Pleasant Avenue this village, Wednesday, April 6, 1923, following an illness of months duration. Deceased was born November 10th, 1836, at Augusta, N. Y. daughter of David and Elizabeth Mahan Stillson. Mrs. Atwood had been a resident of Andover for sixty-two years, her husband, the late Amos B. Atwood, whose death occurred in 1890, having been identified for years with the business interests of the village. For several years she has been a semi-invalid and confined to her home the greater part of the time.

She is survived by a son, Edward J. Atwood, and one daughter, Mrs. Emma Judd, who came from New York City more than a year ago to assist in the care of her mother.

Farewell services will be conducted this afternoon, at 3 o'clock from the home, by her pastor, Rev. Charles Whelan of the Methodist Episcopal Church, and interment made in Valley Brook Cemetery.

## KIRKPATRICK HOME OF CUBA WANTS \$5,000

### Executor A. B. Kenyon for Mary J. Willard Estate Doesn't See it That Way

Cuba, March 23rd. — Whether the Kirkpatrick Home for Childless Women here, is entitled to a claim for \$5,000 from a resident who died before the customary two-months' probationary period had expired, was a question placed before the Appellate Division, fourth department at Rochester, in an appeal argued recently.

The home cares for childless women more than 50 years old. Mary J. Willard entered the home on probation on August 16, 1920. On September 11, 1920, she entered into a contract to pay the home \$5,000 in return for life care. She died four days later.

The home filed a claim for the full amount called for in the contract, claiming that she had waived the two-months' probationary period when she signed the agreement. Alpheus B. Kenyon, executor of her will, refused to allow the claim.

The home claimed that she left an estate worth more than \$20,000, and brought suit to collect from the executor. In his answer, Kenyon set up that Mary J. Willard entered the home under rules which provided that she might leave any time during the two months' probationary period and that this period had not expired when she died.

The case was tried before Supreme Court Justice Charles H. Brown, in Belmont, on September 5th last. After the taking of evidence for the plaintiff, the attorney for the defense moved that the jury be directed to return a verdict of \$50 in favor of the home. The attorney for the home made a counter-motion for a verdict for the full amount. Justice Brown reserved decision and on November 21st directed a \$50 verdict for the home. From this judgment the home appealed.

Argument on the appeal was made by Walter N. Renwick, of Cuba, for the home, and Lee Fassett, of Wells-ville, for the executor.

### OLDER BOYS' CONFERENCE AT ALFRED THIS YEAR

Alfred is arranging to entertain the Older Boys' Conference for Allegany County this year. The student Y. M. C. A. has assumed the responsibility of all local arrangements. The conference will open on Saturday afternoon, April 28th at 3:30, and close on Sunday afternoon, the 29th, at about the same hour.

Dr. F. N. Seerley, of Springfield, Mass., and Mr. J. H. Warner, Y. M. C. A. Secretary for Brazil, have been secured as speakers. The seventeen committees were represented by 221 Older Boys and their leaders at the conference held at Cuba, last May. The conference at Alfred will be limited to 200 boys owing to the necessity of entertaining the delegates over night. Every village in the county should take active steps at once to be represented in this important meeting of teen aged boys.

The registration fee covering a ticket to the banquet to be served on Saturday evening is \$1.00, the same as last year. Preliminary booklets and printed matter will be mailed to leaders in the various communities soon. Leaders desiring such and not receiving them before April 10th, should apply to S. F. Lester, County Secretary of Y. M. C. A. at Wells-ville.

## THE MEANING OF THE RED TRIANGLE INSIGNA

### What the Boys Stand For Holding Membership in the Institution

Boys with Red Triangles on their sweaters or coats are beginning to be seen on our streets these days, and we wonder what they are for. Let us explain.

The object of this organization shall be to supplement the churches in their effort to provide the boys of Allegany County with a program of character-building activities that shall lead to the development of a four-square manhood and to extend the kingdom of Christ among boys.

Membership in the club is open to any boy between the ages of twelve and sixteen, both inclusive, who is a member in good standing of any church school group in Allegany County. Each applicant for membership signs the following declaration of purpose:

"I declare that as a member of the Order of the Red Triangle I will endeavor to be loyal to the principles for which it stands and to the church group of which I am a member. I will serve my fellows in a friendly way and will strive to measure up to Christian standards of conduct."

A neat membership ticket is issued each member of the club. This serves to identify him with the country-wide organization and gives him a splendid introduction to any Y. M. C. A. It makes him a partner in the great service tasks undertaken by the association and a member of a world-wide Christian Brotherhood.

What does it cost him? Loyalty to his church and to the ideals of young manhood held by the association. There is no money charge.

The time is past when the leader of a church school group of boys can satisfy the demands of the situation by meeting his boys for a half-hour once a week. A program of mid-week activities is absolutely essential if the leader is to know his boys and be a real factor in their lives. Men should be set apart for this work and relieved from other responsibilities in the church life.

These men think of themselves more as coaches sitting on the sidelines helping the boys to do what they want to do, rather than to attempt to do things for the boys. The Order of the Red Triangle is organized for the purpose of supplementing the efforts of the church along the above lines and to create a spirit of comradeship between the boys of the various denominations of a community.

### WALLACE CUMMINGS

#### MRS. PHOEBE YOUNG

Mrs. Phoebe Cooper Young, widow of the late Wm. A. Young of Eldred, Pa., lost her life Thursday, March 29th, when the building in which she lived and owned, burned to the ground. Mrs. Young was an invalid and lived alone with her housekeeper, Mrs. John Mullett, above the store occupied by the Oil Well Supply Company. When Mrs. Mullett awakened the building was in flames and had gained such headway that the room in which Mrs. Young was sleeping was completely surrounded. It was impossible to reach her altho every effort was made to do so and the housekeeper was badly burned in the attempt.

Mrs. Young was a former Andover woman, her father owning a farm between this village and Independence. Her husband died two years ago.

Funeral services were held Easter Sunday from the Methodist Church, at Eldred, Pa., and the remains taken to Obi, N. Y. for interment.

### 10,000 TREES FREE

The Conservation Commission has assigned 10,000 trees to the Allegany County Farm Bureau for reforesting demonstration plots this spring. White, red or Scotch pine, Norway spruce, black locust and Carolina poplar are available and will be allotted free by County Agricultural Agent C. B. Raymond, for reforesting purposes anywhere in the county. Application should be made at once. It takes about 1,200 trees for an acre, which is the recommended size of a demonstration plot. Two men can set an acre in less than two days. Detailed instructions for planting will be furnished everyone getting trees.

Very likely the real estate ad which you ought to read and answer, is printed to-day.

## ANOTHER OIL COMPANY IS ON THE ROCKS

### Andover-Texas Oil & Drilling Co. Called Together For Dissolution

Stockholders of the Andover-Texas Oil & Drilling Co. are receiving notice this week of a meeting at Wells-ville, April 17th, for the purpose of voting that the company should be dissolved.

In a letter with the notice is a statement of the company's financial affairs by Secretary J. W. Miller, which does not reflect the fact that any of the stockholders will become millionaires from the income of that company.

Among other things the letter says: "At the time we moved our equipment into the State of Texas the oil business was booming in the state. Oil was bringing \$3.50 per bbl. and there were not tools enough in the state to fill the drilling demand. Within a short time the price of oil went down to 80 cts. per bbl. money became so scarce that it was not even profitable to attempt to contract as collections could not be made for work done."

"We purchased a lease in the shallow field near Brownwood and drilled a number of wells and pumped the lease. It had three producing wells when we took it over and we drilled five wells including one dry hole. After we were thru with the initial expense of purchase and drilling and the production had settled down, we never have received enough from the oil to pay the operating expense of the lease."

"We went into Coleman County and leased one hundred sixty acres and drilled one well which proved to be dry. This well was drilled to the lower sands, but never made a profitable showing of either gas or oil."

"We took over a lease of thirty acres on which two wells had been drilled and as payment for our half interest in this we drilled two other wells. This was part of a farm on which other parties had a number of wells, and they wanted this lease also. We bought the other half of the thirty acres for \$2,000.00 and sold the whole lease for \$8,000 which was the best venture we made in the Texas field."

"Our holdings were not extensive enough to warrant keeping a superintendent there and when we tried to depend on local labor to do our pumping, there was not enough production to pay the wages. At the present time our wells are not being pumped and the we have offered the lease for some six months at \$4,000.00 we do not find a purchaser."

"The account of the balance sheet indicated as the California property is a plot of 120 acres of land that we own, and have paid for. This property is in the vicinity of production but is untested. The drilling is very deep and we can not possibly operate it. It may never bring us what we paid for it and again it may be the one thing that will bring the stockholders a return on the money they have in the company."

### NEW CHEVROLET COUPE FOR USE OF COUNTY NURSE

The Allegany County Committee on Tuberculosis and Public Health has just purchased a Chevrolet coupe for the use of the County Tuberculosis nurse. Last January, the Board of Supervisors, recognizing that the steady growth of the work and the necessity for giving to all parts of the county adequate personal attention rendered such action imperative, appropriated the necessary funds for the purchase of a car.

### EASTER SERVICE

Appropriate Easter services were held Sunday morning at the Presbyterian Church. In addition to the usual order, the Sacrament of Baptism was administered, together with the celebration of the Sacrament of the Lord's Supper. Ten new members were received into the full membership of the church, on confession of faith and by letter. Special Easter music was rendered by the choir.

### W. C. T. U.

The Woman's Christian Temperance Union has been postponed one week to meet with Mrs. Agnes Robinson, Friday afternoon, April 13th.

Mrs. Robinson and Mrs. Howland, directors.

### W. F. M. S.

Woman's Foreign Missionary Society will meet at the M. E. Church, Tuesday afternoon, April 10th, at 2:30 o'clock. All are cordially invited.

## CHURCHES MAKE GREATEST GAINS

Washington, March 30. — American churches made the greatest gains in history during last year, the total membership having increased to 47,461,558 persons.

The year's gain in membership was 1,220,428, which is fifty per cent. greater than the annual average growth for the preceding five years.

The Federal Council of Churches, in a statement, says:

"The great increase in membership is due largely to the Roman Catholic Church, which shows an increase of 219,158; the Methodist Episcopal Church, an increase of 122,975, and the Baptists, an increase of 171,686."

### CRANDALL — CLARK

Miss Corinne Crandall, of Wells-ville, and Cecil Clark, of Andover, were married March 28th, by Rev. Clay Poland, pastor of the Wells-ville Baptist Church.

## L. O. O. F. DISTRICT GRAND COMMITTEE TO MEET

### Annual Gathering of Three-Linkers Will Be Held at Allentown, April 11th

The District Grand Committee meeting of the Odd Fellows fraternity of Allegany County will be held at Allentown, N. Y. next Wednesday, April 11th.

The important business of the gathering will be the recommendation of a District Deputy Grand Master, who will assume office immediately after the Grand Lodge which meets in Watertown, in August. W. E. Adams of Allentown, is the present District Deputy.

If the office goes in rotation, as it has been doing for a number of years past, the office this year will be given to a member of Alfred Lodge. William H. Thomas is their candidate. Alfred has not had a deputy in ten years and the office belongs to Alfred this year.

Following the meeting of the District Grand Committee, three degrees will be worked under the auspices of Allentown Lodge No. 46. At 7 p. m. the Initiating degree will be conferred by Alfred Lodge No. 362 degree team.

At 9 p. m. the degree team of Bolivar Lodge No. 515. will work the first degree.

At 11:30 Cuba Lodge No. 691. will exemplify the second degree.

Cedar Rehearsal Lodge No. 594. will serve dinner at L. O. O. F. dining room, at 5:30 p. m. and luncheon at 11 p. m.

### DIXON — NEU

Married Tuesday morning at 8:15 at St. Ann's Church, by the Rev. Father Naughton, Mary Dixon, daughter of Mr. and Mrs. M. J. Dixon, of Almond, and Darwin Neu, of Hornell, formerly of Angelica. They were attended by cousins of the bride, Miss Anna Joyce and Norman Joyce, of Andover.

After a wedding breakfast served to the immediate families at the home of her sister, Mrs. Charles Shinebarger, they departed on train No. 1,000 for New York and other eastern points. On their return home they will be at home to their many friends at No. 433. Canisteo Street, where a newly furnished home awaits them. —Hornell Tribune.

The dollar-saving fact is still the interesting fact — to the average humans. That's why the ads are "good."

## STATE COMMISSIONER OF HIGHWAYS RESPONDS

### Col. Greene Calls Halt on Political Propaganda on His Department

The attention of Frederick Stuart Greene, State Commissioner of Highways, has been called to the publication of articles which aim to spread thruout the state propaganda that, under his administration the department will deprive counties of work needed for the maintenance and reconstruction of highways.

Questioned concerning the matter the commissioner answered: "This flood of articles plainly is partisan propaganda. The similarity of the wording shows that it is 'boiler plate' stuff; evidently coming from a single source, which is unfriendly to the present state administration and which deliberately seeks to misinform and mislead the public by trying to create the impression that the roads of this state will be neglected during the present season."

"The exact opposite is true," Commissioner Greene declared with emphasis. "More funds are asked for and will be used to put the roads in good condition this year than has been used in any previous year. The Legislature has granted us larger sums for both general maintenance and reconstruction than it has ever given to the Highway Department for that purpose, and the department is organized on a basis so efficient that the people will receive a dollar in benefit for every dollar expended. Here are the true figures. They are public record and I challenge anybody to successfully contradict them."

General maintenance (state budget) 1922, \$5,274,000.

General maintenance (state budget) 1923, \$5,795,560.

Resurfacing and reconstruction (state budget) 1922, \$76,000.

Resurfacing and reconstruction (state budget) 1923, \$2,204,440.

Federal Aid Reconstruction, 1922, \$1,853,585.

Federal Aid Reconstruction, 1923, \$2,849,630.

Miles of reconstruction and resurfacing put under contract in 1922, \$108.28.

Miles of reconstruction and resurfacing to be put under contract during 1923, \$161.00.

"These records show that the Highway Department purposes using in 1923, \$2,846,045 more for maintenance and reconstruction than was used in 1922, and more than was ever used in any years since the Highway Department was organized."
