DANGERS OF A COLD

Andover People Will Do Well to Heed Them

Many bad cases of kidney trouble result from a cold or chill. Congested kidneys fall behind in filtering the poison-laden blood and backache, headache, dizziness and disordered kidney action follow. Don't neglect a cold. Use Doan's Kidney Pills at the first sign of kidney trouble. Follow this Andover resident's example: Mrs. L. W. Theetge, Rochambeau Ave., says: "My kidneys were causing me considerable trouble and I believe it was all brought on by a cold that settled in the small of my back. My back became awfully lame and sore, causing sharp pains to catch me when I least expected them. I felt nervous and irritable and my kidneys didn't act right. I kept getting worse and finally began to suffer with spells of dizziness. I began to use Doan's Kidney Pills and it wasn't long before they completely removed every sign of the trouble."
