Hay

Light movement is ruling factor in current hay market situation. Demand of limited volume and probably will not absorb any material increase in receipts without lowering the market. Eastern markets dull but central western markets rather active for limited arrivals. Quoted May 26th: No. 1 timothy New York \$25.50, Phila. \$23, Pittsburgh \$21.50, Cincinnati \$20, Chicago \$23, Minneapolis \$18, Atlanta \$26.50, Memphis \$23,

Following advances amounting to about 2c which occurred on Wisconsin Boards, Monday, these markets appear active at the new prices, but on the whole business is being done on a confident basis. Prices at Wisconsin primary cheese markets May 26: Flats 24c; Twins 23½c; Young Americas 24c; Longhorns 24c; Square Prints 25c.

Most feed markets dull and inactive with occasional inquiries for transit shipments. Deferred offerings continue difficult to place in interior. Grain

Highest prices were reached the first two days of week after which the market trended lower under liquidation and local selling. For the week Chicago July wheat declined 2½c net; Chicago July corn down 2½c. Continued liquidation forced prices lower on the 28th, but short covering and buying by commission houses brought about a reaction from low points. Lack of confidence in market and better weather conditions were responsible for break. Closing prices in Chicago cash market: No. 2 red winter wheat \$1.18; No. 2 mixed corn 79c; No. 2 yellow corn 79c. No. 3 white oats 43c. Average farm prices: No. 2 mixed corn in central Iowa 66c. Dairy and Poultry Products

Butter markets weak and lower in the face of increasing supplies on the markets. Production increasing and some current receipts beginning to show grass flower, but on the whole neither quality or prices are such as to make storing a safe risk in the

opinion of most operators. Closing prices, 92 score butter: New York 39c; Phila 39½c; Boston 40c; Chicago 37½c. Following advances amounting to about 2c which occurred on Wisconsin Boards, Monday, these markets appear active at the new prices, but on the whole business is being done on a confident basis. Prices at Wisconsin primary cheese markets May 26: Flats 24c; Twins 23½c; Young Americas 24c; Longhorns 24c; Square Prints 25c.

THE CAPE HAS MANY ADVANTAGES as a WARM WEATHER WRAP

Without being heavy it provides just warmth enough to take off the chill of May days. And because of its loose wrapness there's no danger of it muzzing the light crushable frocks worn beneath it. Particularly attractive are the Capes with batwing sleeves, those that are topped with a soft collar and those both of silk crepe and rich pile fabrics.
