KIDNEY DISEASES ARE TOO DANGEROUS FOR ANDOVER PEOPLE TO NEGLECT

The great dangers of kidney troubles is that they so often get a firm hold before the sufferer recognizes them. Health will be gradually undermined. Backache, headache, nervousness, lameness, soreness, lumbago, urinary troubles, dropsy, gravel and Bright's disease may follow as the kidneys get worse. Don't neglect your kidneys. Help the kidneys with Doan's Kidney Pills, which are so strongly recommended right here in Andover.

Mrs. L. M. Trowbridge, First St., Andover, says: "I was troubled with an awful weakness in my back. Right across the small of my back there was a constant, bearing-down pain that aggravated me from morning until night. Dizzy spells would come over me and spots seemed to come before my eyes, blurring my sight. I felt tired out and listless, too. One box of Doan's Kidney Pills cured me of the trouble and made me feel strong and well again."

Sixty cents at all dealers. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

USEFUL HINTS

Grease Spots.—For grease spots on silk lay a blotter under the spot and then rub some warmed flour on the stain. Brush off and renew until the grease disappears.

A Fall.—When a child gets a bad fall, peel and grate a raw potato, and rub the part affected, and it will reduce the swelling in a short time.

Earache.—For earache roast a raisin and bind as hot as can be borne on the ear.

To Clean Feathers.—Soak them in benzine and then rinse in clear benzine and dry out of doors. Be sure and keep away from the fire.

Washing Windows.—When washing windows add a small quantity of bluing to the water.

Shoes.—If the leather of your shoes become hard, rub the shoes with a little castor oil and they will become soft and comfortable.

To Wash Silks.—Wash your white silk gloves, hosiery, and lingerie in cold water and dry them in the shade and you will not find them turning yellow.

Burns or Scalds.—The white of an egg applied to the burn or scald is most soothing and will cause the wound to heal quickly. Never apply iodine to any raw surface of skin.

45's sold \$8-10 eastern markets; \$4-7 other cities. Texas salmon tints \$5-6 in New York City. Flats in Phila. and Pittsburgh \$2-2.25. Florida Tom Watson watermelons 22-30 lbs. \$150-750 bulk per car city markets, \$300-750 cash track to growers.

Hay

There has been the usual falling off in demand during the past week caused by the increased use of pasture and local forage. Receipts, while not heavy, have been equal to or slightly in excess of the demand at many markets and have therefore held prices to their relatively low level. Continued moderate loadings are reported at country points. The movement of new alfalfa has been further delayed by rains in the southwest and only two cars have been received to date at Kansas City, Arizona and Oklahoma have been offering new hay for early June shipment or as soon as the weather permits at prices ranging from \$11.50-12.50 per ton fob loading points. Old alfalfa prices have continued weak but supply and demand have both been light. Prairie prices have continued firm on light receipts and a fair consuming demand. New Prairie is not expected in the central western markets until about July 1. No. 1 Timothy quoted June 2 Boston \$27. New York \$26.50, Phila. \$23. Pittsburgh \$21.50, Cincinnati \$19, Chicago \$23.50, St. Louis \$24. Atlanta \$26.50.

Feed

Decline in prices of most feed-stuffs continues. Wheat feeds especially bran heavy on increased offerings. Bran for June, July and August shipment quoted \$3-4 below prompt shipment prices. Middlings firm on light offerings. Linseed meal and cottonseed meal 50c-\$1 lower, offerings good, demand light. Glutenfeed and hominy feed fairly firm. Demand has dropped off for

gluten feed but mill offerings are light while resellers offer substantial quantities. Receipts and the movement good. Supplies generally normal. Quote June 2 Bran \$23.50, middlings \$27, flour middlings \$30, Minneapolis; gluten feed \$37.15 Chicago; 32% linseed meal \$35.50 Minneapolis, \$39 Buffalo; 36% cottonseed meal \$37 Memphis, \$37.50 Atlanta; white hominy feed \$32 St. Louis \$34 Chicago. No. 1 alfalfa meal \$27.75 Chicago.

Grain

Wheat prices finished sharply lower for the week, but corn closed higher, Chicago July wheat down 5 1/2c; Chicago July corn up 3 1/2c. The wheat market had periods of strength but prices declined on liquidation and there was little buy-and-sell activity. Wheat had heavy undertone on the 4th. Strength in corn was sustained by limited Liverpool low buying pressure; foreign demand dull. Corn prices advanced on short covering and new buying encouraged by unexpected decrease in visible supply. Closing future prices: Chicago July wheat \$1.08 1/2; Chicago July corn 80 1/2c; Minneapolis July wheat \$1.11 1/4; Kansas City July wheat \$1.01 1/4.

Dairy and Poultry Products

Butter markets gained some strength during the week. Previous declines had reduced prices and this, together with the fact that quality was more suitable for storing, added strength to the markets. Imports are the only weakening factors. For the week included 1,000 boxes of New Zealand butter; 2,000 cases of Danish and small shipments from Ireland and the Baltic states. Estimated that additional 5,000 cases are afloat from Denmark and about 2,000 boxes from Argentina. Closing prices, 92 score

butter: New York 39 1/2c; Chicago 40c; Phila. 40 1/2c. Cheese markets about steady. Slight increase in the volume of business handled during the week, and a more or less unsettled undertone. Receipts show grass flavor, although pasture conditions in Wisconsin are not favorable to base quality production. Prices at Wisconsin primary cheese markets June 2: Twins 24c; Single Daisies 24c; Double Daisies 23 1/2c; Longhorns 24 1/2c; Square Prints 25c.
