

Ask Your Banker!

WHEN anyone tries to sell you any investment and tells you to say nothing to your banker about it, he knows it as an investment no banker will touch.

Millions are lost yearly because people do not FIRST ask their bankers BEFORE they invest.

PORTLAND CEMENT-only 2% of home building cost

NO home is built today without Portland Cement. Yet the cost of the Portland Cement used in the average home is only 2% of the total cost.

That 2% adds to fire protection, to health, to permanence. Your building material dealer is a merchant of necessities. His advice is sound—on types of construction, on brands of materials.

ELECTROCUTED

Perry Man Killed Rescuing Daughter, at Perry.

Victor Faryna, a Perry grocer, was instantly killed June 23, when he grabbed a guy wire to an electric pole.

His daughter was climbing on the bank of a creek near the store and took hold of the guy wire supporting a heavily charged electric line, and she was knocked into the creek near by. Her father heard her cries and ran to her assistance, also grabbing the wire, and was instantly killed.

The mother tried to unloosen her husband from the wire and she, too, was hurled into the creek.

The mother and child will recover. They were injured more by the fall than from the current.

What your store is to be in a year from now exists in your plans for it to-day—in the publicity campaign you're creating now.
