Grain

Grain prices were highest first day of week and lowest at close with sharp losses in all deliveries. Most important selling was hedging pressure while buying was discouraged by favorable crop news from rust sections of Northwest and Canadian government prediction for record wheat crop. Wheat dropped to new levels today with December under

\$1 for first time. Hedging sales weakness in Winnipeg on favorable crop prospects and slow foreign demand were responsible. Short coverings fairly general and checked all declines. Visible supply of wheat 23,840,000 bushels compared with 15,309,000 bushels same date last year. Crop net buying on breaks and held reasonably steady basis but weakness in wheat was depressing influence. Visible supply corn 2,547,000 bushels compared with 25,652,000 bushels same date last year.

Closing prices of 92 score butter New York 38½c; Chicago 37c; Phila. 39½c; Boston 39c. Cheese market a trifle slow following advances on Wisconsin cheese boards July 9. "In approaching a vehicle coming in the opposite direction, keep well to the right—particularly at a corner or curve in the road. Corners and curves should always be taken cautiously and slowly for obvious reasons of safety and also to reduce the strain on tires and axles."

(The Veteran Motorist)

"YOU know, Experience is a great teacher. But his lessons are pretty expensive sometimes. I remember a case in point some months ago. Friend of mine had just got a new sedan. So, one Sunday, with our families, we made it a party of two cars for a trip into the country."

"Tom was about a hundred feet ahead of me, and we were both rolling comfortably along. I noticed a bend in the road a little ways ahead, and as Tom got up to it, a good sized roadster appeared coming toward us, hitting about 50 per, and taking the curve wide, which headed him straight for Tom's sedan."

"Tom pulled over as far as he could and the roadster straightened out just in time to miss his scared family by inches. The chap did the gentlemanly thing—stopped and came back to apologize. And from the scared look in his face, I think he learned his lesson—that taking curves that way may cost two or three lives any day in the week."
