### Hay

Markets holding firm. Receipts new hay increasing but arrivals well absorbed account low stocks in cities. Best grades rather scarce and in excellent demand. New best prairie moving well. Quoted July 21 No. 1 Timothy Chicago \$25, Memphis \$24 Phila. \$25, Pittsburgh \$23, Atlanta

\$27, Cincinnati \$22, 50. New York \$28.50, Minneapolis \$18, Number 1 alfalfa Chicago \$23, Memphis \$22.50 Atlanta \$32, Cincinnati \$21. No. 1 prairie Chicago \$18, Kansas City \$16.50; Omaha \$18; St. Louis \$22; Minneapolis \$17.

### Feed

Wheatfeeds dull. Demand from interior very light resulting from good pastures in most sections. Recent advance of \$.50 to \$1 per ton in cottonseed meal materially reduced demand. Sales from mills to Jobbers very light. Quoted July 21. Minneapolis bran \$19.50, Middlings \$23.50; Flour middlings \$28, Rye middlings \$23; Gluten feed Chicago \$37.15; 36% cottonseed meal Memphis \$35.75, Atlanta \$36.50; 32% linseed meal Minneapolis \$39, Buffalo \$39; White hominy feed St. Louis \$31.50 Chicago \$32.

### Dairy Products

Although butter markets were unsettled during the week there was very little change in prices with a decrease in receipts and quality showing up poor under summer condition. The demand for the better grades was generally firmer while lower grades accumulated and were more difficult to move. Closing prices of 92 score butter: New York 41; Chicago 39; Phila. 41 1/2c; Boston 40 1/2c; Cheese markets are showing the influence of heavy production and larger storage stocks with buyers conservative in their operations. Cheese prices at Wisconsin primary markets July 21: Flats 22 1/2c single daisies 22 1/2c; Young Americas 22 1/2c; Longhorns 22 1/2c Square prints 22 1/2c.

### The Two-Thirds Rule

By DANIEL F. COHALAN, Supreme Court Justice, State of New York.

As 1924 approaches, the interest of the country is naturally beginning to center upon the next National Election and upon the selection to be made of candidates by the two major parties.

Much of the strength of the answer, particularly in the Democratic party, depends upon the disposition to be made by the Convention of the two-thirds rule by which many of its predecessors have consented to be bound.

It is hard to find any Democratic reason why this rule—a survival in a way of autocracy—should continue to control the actions and cripple the freedom of the party.

The rule is the antithesis of Democracy in that it makes possible the rule not of a majority but of a minority. It violates the theories of Jefferson and the practices of Jackson. It is a survival of the times when the Party had ceased to be national and had become sectional. It was born out of fear of the South and has been made the instrument of power for the corrupting and reactionary forces that control the great delegations from the largely populated manufacturing States. It enables so-called leaders—who represent only the powers of money and greed for office—to control the Convention. It enables a clique of bosses to dominate and place a veto power over the majority in the hands of the minority. It cannot continue unless the majority of the Convention so decide—for each Convention is an absolute law unto itself and the first act of the next Convention and one that would strongly appeal to the country—should be to abolish this undemocratic rule with its twin monstrosity—the unit rule.

### Our Villages Must Watch Their Steps

While the public mind quite willingly agrees on the wisdom of thrift and saving as applied to individuals and general business operation, it is strangely indifferent to wasteful practices in government, and unless there be a rapid awakening to individual responsibility hundreds of small towns and villages will soon be reaping the whirlwind.

Reports from many sections show that the amount of money being spent on public improvements is such as to cause the gravest apprehension.

Most of our public improvements in the rural districts are handled by bond issues spread over a period of time long in excess of the life of the product. In many villages fifteen and twenty year bonds are issued for the building of roads whose natural life is not in excess of ten years.

Communities are apt to follow lines of least resistance, the people refraining from any criticism of men in public office. This may be explainable because most of these men serve without pay, and usually are conscientious in their effort at community building. The fact remains, however, if the people are to protect themselves they must develop a stronger moral courage and cease to resent criticism of this kind.

### HELPFUL HEALTH HINTS

**Prickly Heat.**—A good talcum powder frequently applied does much to eliminate this annoying skin disease. When a case of prickly heat is severe the skin should be bathed with a mixture of one part alcohol to three of water afterwards dusting with talcum powder.

**Fruit Before Breakfast.**—An orange eaten half an hour before breakfast is a splendid aid to the digestive system.

**Hicoughs.**—Taking small regular swallows of water from a glass without taking a breath will usually stop hicoughs. If this fails try giving the patient a teaspoonful of granulated sugar and vinegar.

### Flight of Refugees from Mt. Etna

A sad sight in a little town at the base of Mt. Etna in Sicily, showing a village which was later completely destroyed by a torrent of lava falling from the volcano. As this exclusive photo was taken, the ashes were falling, women and children were fleeing and military police were making effort to remove inflammable materials.
