Says the Veteran Motorist:

"I WISH I could paint some big signs along every motor highway and byway. They would all be alike—just five words. But I'm convinced that those five words would save many a mishap and many a doctor's bill. Here they are: LOOK WELL TO YOUR BRAKES.

"The least every motorist can do, for his own protection and the safety of others, is to be absolutely sure that the brakes are 100% O. K. Many a chap has started out for a spin and come back via the tow-line, sadder and wiser, because his brakes 'didn't work.'

"He thought they were good enough. But when a real test came on a steep hill, with a blind cross-road at the bottom, they didn't measure up. And it happens every day—to somebody. Look well to your brakes!"
