UNUSUAL EXHIBITS AT NATIONAL DAIRY SHOW

Butter made among the green hills of Ireland, condensed milk made in Japan, secured cattle from India, life-just of Governor Smith of New York modeled entirely from New York State butter and innumerable other features of interest to dairymen will be shown at the National Dairy Exposition at the State Fair Grounds at Syracuse, N. Y., this week.

These displays showing the products of the dairy industry in other countries and other states, will add color and interest to the main part of the show, which promises to be of unusual interest to everyone. Methods of increasing production and cutting down expenses demonstrated at the exposition, will be worth hundreds of dollars to any Allegheny farmers.

A large number of residents of the county have signified their intention of visiting the show, according to County Agent C. B. Raymond, Secretary of County Committee. In addition to the special railroad accommodations for Allegheny County folk, many are planning to drive over. Everyone interested in dairying should make every effort to visit the show. The ideas brought back to the farm should be worth much more than the cost of the trip.

CONFIRMED PROOF

Residents of Andover Cannot Doubt What Has Been Twice Proved.

In gratitude for relief from aches and pains of bad backs—from distressing kidney ills—thousands have publicly recommended Doan's Kidney Pills. Residents of Andover, who so testified years ago, now say the results were permanent. This testimony doubly proves the worth of Doan's Kidney Pills to Andover kidney sufferers.

L. A. Johnson, blacksmith, Main Street, Box 151, Andover, says: "Kidney trouble had a firm grip on me and my back ached terribly. Every time I stooped or did heavy lifting, a sharp pain would catch me in my back. The kidney secretions passed infrequently and were highly colored. I was all out of shape and lame and sore all over when I began using Doan's Kidney Pills. Doan's soon had me feeling better and it only took three boxes to cure me."

(Statement given August 14, 1919.) On July 18, 1923, Mr. Johnson added: "I am glad to confirm my former statement for the cure Doan's gave me has been a lasting one."

Hosiery to Match Your New Costume

CHARMEEN

SEASON'S ago it was decreed that women should wear light weight woollen frocks for Fall, and this season the woollen frock worn with a fur choker has largely taken the place of the costume suit.

In the creation of this new fabric—CHARMEEN—Fashion has met the need for an ideal fabric—a weave that adds to its firm foundation of wool, the bloom, the sheen and the luster of silk. A Poiret fabric but lighter and glossier than Poiret Twill. Crumpled up, its shadows bring out the gleam of broadcloth.

It is the woollen fabric of the hour—of incomparable charm for every type of dress—it will be seen wherever modish women gather.

This Season the Change is Real

This season for the first in many, there's a real change in the style thought—you'll stamp yourself as mighty unprogressive unless you follow the change.

In the new models developed by our tailors at Fashion Park notice the change in collar lapels, lowered waistlines, larger trousers—the idea is thoroughly English.

The fabrics are as interesting as the style. May we not have the pleasure of showing you the new models soon?
