22.75; St. Louis \$30.50; No. 1 Prairie Chicago \$20, St. Louis \$16-17; Kansas City \$14.25.

Feed

Markets eased off further because of the absence of demand. Wheat feeds in very light request. Considerable feeding of wheat reported from many sections. Stocks wheat, feeds accumulating at lakeports and several thousand tons reported held at Buffalo. Linseed meal production heavy, mills operating at capacity and reporting difficulty in securing shipping instructions. Corn feeds in good supply but at firm prices due to strength in cash corn. South American offerings of bran are made in New York market at \$29 per ton. Stocks most feeds good, movement fair and consumption demand light.

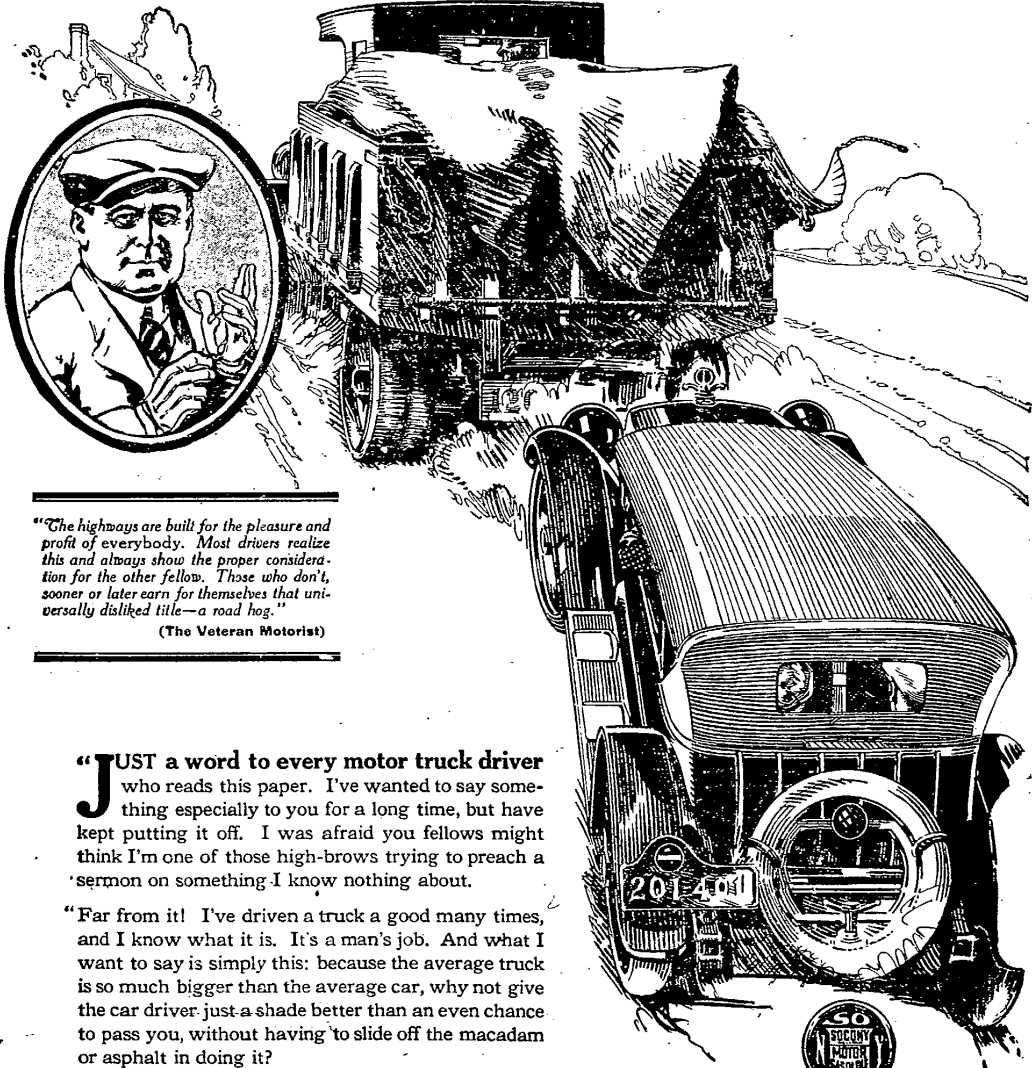

Dairy Products

Weakness developed in the butter markets the latter part of the week ending today and sharp breaks in prices have occurred. Demand has been good, and production is apparently falling off, but with considerable butter being drawn from storage, dealers have lost confidence in the markets at the high prices which have ruled. Imports continue but are relatively light. Closing 92 score butter: New York 45½c; Chicago 44c; Phila. 46½c; Boston

3½c. Cheese markets steady to firm. Toward the latter part of the week demand picked up, even including some speculative buying. Heavy trading taking place at distributing markets, with business at country points a little quiet. Closing prices at Wisconsin primary markets Sept. 22: Flats 25c; Twins 24-25c; Single Daisies 25½c; Young Americas 26½c; Longhorns 26½c; Square Prints 26c.

Grain

Wheat prices trended upward during the week and closed at net gains over a week ago. Main market factors were strength in corn, firmness in northwest markets, absence of selling pressure, and buying by seaboard interests. Trade in wheat dull and narrow on the 24th, with prices influenced by action in corn. Visible supply wheat 63,202,000 bushels compared with 32,344,000 bushels same date last year. Visible supply corn, 2,340,000 bushels compared with 10,559,000 bushels last year. Closing prices in Chicago cash market: No. 2 red winter wheat \$1.06; No. 2 hard winter wheat \$1.10; No. 2 mixed corn in Central Iowa 77c. Closing future prices: Chicago December wheat \$1.04½; Chicago December corn 69½c; Minneapolis December wheat \$1.16½; Kansas City December wheat \$1.02; Winnipeg December wheat 94½c.

"The highways are built for the pleasure and profit of everybody. Most drivers realize this and always show the proper consideration for the other fellow. Those who don't, sooner or later earn for themselves that universally disliked title—a road hog."

(The Veteran Motorist)

"JUST a word to every motor truck driver who reads this paper. I've wanted to say something especially to you for a long time, but have kept putting it off. I was afraid you fellows might think I'm one of those high-brows trying to preach a sermon on something I know nothing about."

"Far from it! I've driven a truck a good many times, and I know what it is. It's a man's job. And what I want to say is simply this: because the average truck is so much bigger than the average car, why not give the car driver just a shade better than an even chance to pass you, without having to slide off the macadam or asphalt in doing it?"

"I don't believe that a single truck driver ever really means to hog the road. But a good many times he forgets. All he's got to do is to stick to his half of the road, and he's 'done his duty'. And it's better for everyone concerned. Incidentally, I understand that every driver in the big, attractive Socony fleet of trucks has special instructions to keep his machine well over to the right—never to hog the road."
