**WOMAN AND A WATER DROP.**  
**COUNTING FORD CHICKENS**  
**STARVING CHILDREN.**  
**THE SHAH DIDN'T CARE.**

County Clerk Niendorf of Michigan issues with each marriage license "Ten Rules to Insure Happy Married Life." Here is a sample: "Keep up the courtship period. Go 50-50 on the money and 50-50 on the love. Don't live with relatives, or keep boarders. Don't be a tightwad."

Such rules mean little. Every man knows that one drop of salt water, patiently sipped, will tell you all about the Pacific Ocean, which is simply a collection of so many drops.

Marriages would last longer if men realized that each woman is to all women what a drop of salt water is to the ocean. Study, analyze, interest yourself in the woman that the Lord has assigned to you. One is enough, and has within her, if you will look for it, everything that you would find in ten thousand.

Democrats forget that Ford's chief plank will tell of the wonderful things to be done for the South at Muscle Shoals.

Ford would draw farmers from the Republican party, but he might also break up the solid South, elect himself, and leave Messrs. Coolidge and McAdoo wondering what happened.

Cotton prices are strong. October cotton passed 30 on Wednesday. December went above 29 yesterday. Manufacturers would do well to buy their raw supplies now. Cotton will be higher—a good thing for the South and the North, as well.

Investigation in New York shows children underfed, undersized. Their parents need money to pay high rents.

Landlords say, quite truly, "It isn't our business. We are taxed; wages and materials are up."

But it ought to be the CITY'S business of the entire white race, to see that young children are fed and have a chance.

The undernourished children of Europe today may mean Asiatics ruling Europe in fifty years hence.

The English interfered with child labor and child stunting, forbade the starving of children that they might be small enough for chimney cleaning, when they found that they grew up too small for the army.

In Germany the price of a loaf of bread jumps four hundred and forty million marks in a day. That number of marks would have been one hundred and ten million dollars before the war. No telling what will happen to men, when their money goes as crazy as that.

Even Nature seems to be fighting against miserable men. In South Africa, a deadly drought and scorching wind storms have dried up the water supply, while locusts, in swarms, have destroyed green plants. It is feared that all cattle will die.

Wars, diseases, earthquakes, droughts, money panics, tidal waves and, worst of all, human beings and nations intent only on robbing and killing each other.

Certain philosophers have thought that among planets there might be some very sick, as there are individuals among human beings. This must be one of the sickest planets.

The Poles and the Turks have signed a treaty of "perpetual peace" and the document was probably signed on both sides without a smile.

It's a good treaty for the present, however, for with Russia getting stronger and wanting Poland on one side, the Dardanelles and the door into the Mediterranean on another, Poles and Turks will hang together or take their chances separately.

The Shah of Persia, invited to attend the Derby, said, "No, I know one horse can run faster than another and I don't care which it is." A hundred thousand who feel differently attended the race between an American horse and the British Derby winner last week. Many very likely laid their first bet on a horse race because of excellent advertising the international contest had.

If you failed to see the race comfort yourself with this thought: An automobile can be bought for less than \$500 that could run both of those horses and a half dozen others to death in a forenoon.

## Sign-Boards on the Up-Road

### HOMEBOUND

Long roads  
And desert's caravansary,  
A dour host at the door  
(Howbeit another day is done.)  
How scant the meat, I have eaten;  
How thin the wine, I have drunken;  
How chill the stark winds, I have walked in the sun;  
And Dream and Memory lie snug a-bed with me.  
Gray dawn—  
'Tis like a thousand dusks shall gleam  
Tween me and thy verberna-starred gard,  
But I am home-bound, east or west;  
I am home-bound, mead or moor—  
Home-bound.

### LET'S ENJOY THE WINTER

WINTER will soon be upon us again, nipping our ears and tingling our fingers and toes. But are we to let it go at that? Are we to plod along in the same old rut in this town, with never an effort to hoist ourselves out?

We ought to have some form of amusement and entertainment in which we can all take part—something that will keep the red blood pulsing thru our veins—something

## 82 NEW MILKERS—ALL PURE-BRED HOLSTEINS IN THE ALLEGANY-STEUBEN HOLSTEIN BREEDERS' ANNUAL FALL SALE

On the Fair Ground, Hornell, N. Y., November 14 and 15. From a 60-day guaranty sale of quality cattle, 130 head to choose 120 females of milking age are included in this remarkable sale. Of these, 25 will be fresh by time of sale and 57 others will be due in November and December—82 new milkers in all.

Have you ever known of a pure-bred Holstein sale having so large a proportion of cows or so large a proportion of milkers fresh or soon due?

Allegany-Steuben Holsteins are healthy Holsteins. The offerings for this sale are drawn from a field in which are many herds that have never had a reacting animal. Recent tests of the Allegany-Steuben district are showing these two counties to be nearly 100% free from tuberculosis.

Unusual care has been exercised by the inspection committee in making selections for this sale. The entries combine individual quality with record breeding. The females in calf have been bred to quality sires—from dams with records up to better than 30 pound butter in 7 days and over 21,000 pounds milk in a year.

Remember! Saturday is Children's Day in the Store. Everything has been arranged to make it especially pleasant and easy to shop on that day. Bring the children in.

but will create the pep of diversity that keeps us young instead of allowing us to grow old before our time.

Of course, we will have the usual number of private parties and social affairs in which a minority will participate. But that does not provide for the many who find but little to make life more enjoyable.

Why not a series of community affairs of some kind or other? We have the people, we have the time, and we have the opportunity.

A certain fellow in this community tells us that we ought to print all of the news "without fear or favor. And perhaps we may, some day. But out of consideration for his family we have so far refrained from going to that extreme.

The father who ignores other people's children should not feel peeved when his own ignore him.
