

WRITE A CHECK

You may be content to rely on your money but the bill-collector won't be. If he disputes the payment of a bill the only thing that will convince or quiet him is presentation of the evidence.

That's no hardship when you use a Checking Account consistently—every check you write is automatically a receipt.

The SUGAR BOWL**When the Goblins Walk**

Hallowe'en—Witches' Night—the night goblins are supposed to walk. Children make merry, and wise grownups take indoors everything that's loose.

But the goblins—"the goblins that get you, if you don't watch out"—do not wait for hallowe'en. They parade any time—any time—if sanitation is not on guard.

These goblins are disease—disease that grows out of waste, dirt and filth. These goblins do not scare people until they hold of them. And then it's too late.

Scare the goblins away with a home that has perfect sanitation, perfect plumbing, perfect heating, perfect ventilation.

This is easy to do, and it costs much less than you think.

The goblins will have a mighty hard time to get you if you live in a home that is well plumbed, well heated and well ventilated—a home with a bathroom that you use—a home with running water.
