Kidney dise..se is .oo dangerous to teglect. At the first sign of back-arche, headache, dizziness, or urintry disorders you should give the weakened kidneys prompt attention. Take things easier and use a reliable kidney tonic. There's no other kidney medicine so well recommended as Doan's Kidney Pills. Andover people rely on them. Here's one of the many statements from Andover people.

W. E. Butter, Main Street, says: "Heavy work on the farm started kidney trouble and I had a dull steady pain in my back. When I stooped, a stitch caught me across the small of my back and I was hardly able to straighten. My mucles, in the morning, were lame an' stiff all over. Weak kidneys had me up several times thru the night to pass the kidney secretions. I got Doan's Kidney Pills at Cheesman's Drug Store and two boxes greatly relieved me of the pain in my back and strengthened my kidneys."

The importance of selecting good, safe insurance companies is shown by the fact that only about sixteen per cent (10%) of the companies organized upon the stock plan which began in 1792 are still in operation and that only about seventy-five per cent (75%) of the companies organized upon the mutual plan which began in 1752 are still in operation.
