My kidneys were disordered and acted too often. I saw Doan's Kidney Pills advertised and got a box. Doan's cured me entirely and I have had no return of the trouble since."

Feed

Feedstuffs demand poor. Light consumption in all important sections resulted in accumulation of stocks. Some pressure of transit offerings noted especially in northeastern markets. Linseed meal weak, stocks heavy, with production exceeding present requirements. Cottonseed and other oil meals dull and reflecting weakness in tankage.

SELECTION OF INSURANCE COMPANIES IMPORTANT

The importance of selecting good, safe insurance companies is shown by the fact that only about sixteen per cent (16%) of the companies organized upon the stock plan which began in 1792 are still in operation and that only about seventy-five per cent (75%) of the companies organized upon the mutual plan which began in 1752 are still in operation.

The above figures are taken from the report of Chas. S. Nesbit, formerly Federal Insurance Commissioner of the District of Columbia.

We represent the very best mutual companies, those that are well managed and have stood the test of years.

For the following: Fire, Life, Automobile (all kinds), Cyclone, Tornado, Compensation and Live Stock Insurance, all in well managed mutual companies, consult with
