George Freeland, 56 years old was skidding logs for T. N. Blair Saturday on the farm of Herbert Case in Banks Hollow. He hooked the chain near the center of the log, as he could not get under the end. The log flew around and struck him on the left shoulder, knocking him down and going on top of him. His son, Ory and Mr. Blair were near by cutting logs and ran to his rescue. He was badly injured. They carried him to the road where Mr. Blair had his car, and took him home. Dr. Whiting of Canisteo was called and was soon in attendance. It was found that his shoulder was broken and two ribs fractured and his chest sore. He suffered until ten P. M. when he passed away. He leaves to mourn his loss his widow and three sons, Ory and Olo of Greenwood and Otto or El mira. One sister, Mrs. Thomas Williams of Hornell and a large circle of friends. He was a member of the local I. O. O. F. Lodge. The funeral

was held at the Methodist Church Tuesday afternoon at 2 o'clock, Rev. Van Duren officiating. The burial was in Greenwood Cemetery.

AMERICAN INDIANS

EXCITE PARASITANS

PARIS, Dec. 13.—A delegation of sixteen Arapaho Indians from Wyoming, clad in all their regalia, arrived in Paris yesterday. Their appearance caused such a commotion in the northern railroad terminus that traffic was held up for some time.

Chief Old Eagle said the delegation intended to ask the League of

Nations to intervene with the United States government so that Indians might have the same rights and privileges as other Americans.

HOW EVERY WORKING

GIRL LOST EIGHT WEEKS' WAGES THIS YEAR

Who pay the taxes? Why, the rich pay taxes, of course. The working girl or the working man with wages from \$18 to \$35 or \$40 a week pays very little or nothing at all to the tax collector. The "burden or taxation" that President Coolidge and the newspapers have so much to say about means nothing to them.

But wait a minute! Some very curious discoveries have just been made about who it is that really carry this "burden of taxation"—and it turns out that it is not the millionaire, after all.

Every working man and woman in the United States this year paid eight week's wages in taxes.

They didn't know it because the taxes are so neatly hidden that they never saw them.

But out of every \$10 bill that they spent about \$1.67 was grabbed by the tax collectors. Of course, if \$1.67 had been missing out of every \$10 bill in the pay-envelope all thru the year an awful howl would have arisen. But that \$1.67 was taken out of every ten dollars of the wage earner just the same—but it was neatly and secretly grabbed after the bills went into the wage earner's pocket-book.

How this was done is fully explained in an illustrated page story in next Sunday's New York American.
