NO RED FLAG FOR WHITE HOUSE.
GIVING GEORGE THE GATE.
EARTH CORE AT \$35,000,000 PER POUND.
INSIDE THE COFFIN.
MOSES AND WILBUR WRIGHT.

The public, thanks to Senator Borah, will learn all about that dreadful Russian conspiracy to plant the red flag in the White House.

Already part of the horrible truth has leaked out. A secret service man says that Russian Communists, disguised as a literary society, met in a hall in New York.

You don't need to be told that, from such a meeting, it is only one step to seizing a nation of one hundred and ten million and planting the bloody red flag on the White House.

The people can never be grateful enough to Secretary Hughes for preventing that. Paul Revere, in his ride; the gentleman that carried the news from Ghent to Aix, or the action record, must make way for Greek soldier who set the first Mar. Charles Evans Hughes, who kept the red flag on the roof of the White House.

King George, of Greece, was notified that Greece could do without him and was sent from the country taking his Queen with him. King George will, not like Henry the Second of England, exclaim, "Shame on a beaten king," turn his face to the wall and die. He will turn his face toward Paris or Monte Carlo, excellent cooking and plenty of snobs in both places, and play King in safety. That is better than being a real King anywhere outside of England now.

Things are better than they were, even for kings. In Cromwell's and Danton's day their heads were cut off. The Greek King goes away, with a pension of \$28,000 a year for life, \$15,000 cash being paid on his leaving. The Greeks will have to pick and dry many currants to pay for that.

This earth has a hard core, like a baseball, or a golf ball. It is a gigantic sphere, bearing a pressure of 25,000 pounds to the square inch, according to reports made to the Washington Academy of Sciences.

While that central sphere, 4,000 miles in diameter, is probably made of iron, a great magnet, perhaps some believe it may be made largely of gold, platinum, or both. Those heaviest metals would work downward toward the center. What desperate efforts men would make to dig down to that central core, if they could be sure that the gold and platinum were there. Men will dig a hole thru the earth some day, using the sun's power to dig, but by

that time gold will no longer be money and money will no longer be so important.

Platinum, more valuable than gold, may be worth \$700 a pound. That sounds costly. But think of radium, with which the market is now glutted. We had almost a monopoly of the precious substance here for a while. But great deposits of radium-yielding pitch blende found in the Belgian Congo have upset the market and the price dropped to about thirty-five million dollars a pound. A short time ago it was that there was not more than half an ounce of radium in all the world.

It is now believed that radium in the sun accounts for the enduring power of that star, sending out light and heat thru hundreds of millions of years, with a certainty of lasting hundreds of millions of years more. We had plenty of radium here, once, if it be true that lead is radium that has lost its radio-active power. If the stars are fountains of radio-acting power, do they grow quiet like our earth and become planets of some bigger sun when their radio-active energy dies?

The golden lid of Tutankhamen's magnificent coffin has been raised, showing glorious decorations in blue and gold, with plenty of space for an extra corpse or two. There are still one or two doors of the coffin to be opened. Then will be found the remains of the creature who once ruled all Egypt, now a dried mass of skin and bone, preserved to prove, three thousand years later, that nothing matters except what you do while you are still alive.

The bonus bill is back in Congress. Capital, fearing to be "taxed," tells you with tears in its eyes, "It will cost seventy million dollars next year if you give the soldiers their bonus." Another year of war would have cost this country FIFTY THOUSAND MILLION DOLLARS. The men that went across, lost their jobs and watched the prosperous people profiteering prevented that.

The government railroad in Alaska ends at Nenana. From that point mails to Fairbanks are drawn by dogs, taking twenty days. Now the dogs will get a rest, and the letters will go flying in four hours that's progress.

Moses with his friends wandered around the desert forty years. Starting after a comfortable breakfast, flying machines would have taken them to the Land of Promise in time for luncheon.

Moses surely is interested in Wilbur Wright, who helped his brother invent the flying-machine and is now in heaven.

The good news that another person may find employment in your business should find its way quickly to the "want columns."

Hall's Cataract Medicine is a Combination of local and internal treatment, successful in the treatment of Cataract for over forty years. Sold by all druggists. F. J. CHENEY & CO., Toledo, Ohio

Births

Dec. 9, to Mr. and Mrs. Ralph Hill of Little Genesee, a daughter, Gladys Marie.

Marriages

Miss Myrtle L. Munson of Wellsville and Eugene Ciccarelli, Jr., of New York City, were married Dec. 27 at the home of the bride's parents, Mr. and Mrs. C. H. Munson of Wellsville.
 Mrs. Victoria W. Wellman and Dan M. Todd of Friendship were married Dec. 12.
 Miss Alice J. Gardner of Wellsville and Clarence R. Christman of Solivar, were united in marriage Dec. 21.
 Miss Genevieve Sweeney and Clinton Foster of Friendship were married Dec. 27.

Deaths

Jeremiah Austin died Dec. 29, at the home of his sister, Mrs. Mary Place of Alfred Station, aged 83 years.

Mrs. Ethel Lascelle, wife of the Rev. George T. Lascelle died suddenly of heart trouble Dec. 28 at their home, St. Phillips Rectory, in Belmont. Mrs. Lascelle was born at Atlanta, Ga., May 8, 1900, and is survived by her husband, a son three years old and her mother, Mrs. Fortine. The body was taken to Sparkhill, N. Y., for interment.

Mrs. Ann Duke Crowner, died Dec. 27 at the Wellsville Hospital from the effects of a fall the day previous. Deceased was 68 years of age.

Mrs. Edward Hayes died at her home in Wellsville Dec. 28, of bronchial pneumonia.

Mrs. F. M. Ingalls of Cuba died Dec. 24 of pneumonia. Deceased was born at Cuba in 1845. Mrs. Ingalls is survived by her husband who is critically ill. Their only child, Mrs. John Sloan died one week before her mother's death.

Mrs. William Benson died at her home in Bolivar, Dec. 25, after an illness of a few hours of neuralgia of the heart. Aged 44 years. Her husband and five children survive.

Mrs. George Nolan, died of tuberculosis at her home in Bolivar, Dec. 27. Aged 19 years.

Miss Catherine Shaw died after a few hours illness of heart disease Dec. 25 at the home of her brother-in-law, Atty. D. D. Dickson of Angelica, aged 60 years. The body was taken to New York City for burial.

BONUS GETS SETBACK

House Committee Refuses to Give it Precedence.

Soldiers' bonus legislation received a setback with the refusal of the house ways and means committee to give it right of way over administrative provisions of the treasury's tax bill. The committee declined, however, to sidetrack it until a decision is reached as to what changes should be made in tax rates.

The bonus was given another jolt by Secretary Mellon who declared in a letter to Rep. Andrew, Rep. Massachusetts, that if the compensation measure vetoed by President Harding were enacted the direct cost would total \$5,400,520,444 and would average \$225,000,000 for the first four years.

FOR THE YEAR 1924

We wish to extend greetings of joy and comfort to all the world.

To any man or woman calling we will present at this time a large can of foot powder free, just as a reminder of our appreciation.

BETTER SHOES FOR LESS MONEY

Mutualizing
A Great Power Industry

The Niagara Falls Power Company is owned by some 5,000 stockholders, whose average holding is less than 50 shares. Most of these stockholders live in New York State and are users of the electricity produced by the company they own.

As investors, they receive a fair and reasonable return on the money they have invested.

As users, they know that The Niagara Falls Power Company sells its electricity at the lowest average price received by any generating system on the North American continent.

All the initiative and operating efficiency of private enterprise are thus combined with the popular ownership in the best and truest sense.

We are going to bring you face to face with the Greatest Half-Price Sale ever held in Hornell--We tell you frankly you cannot afford to miss this sale; the money-saving opportunity is yours.

A penny a day per cow invested in KOW-KARE works wonders.

A poor milk cow just as much to house, feed and care for as a good producer. For this reason just a slight increase in the milk yield makes a big difference in the net profit. Dairy experts say an increase of 10% in the milk yield will double the profit.

How important it is, then to get from your cows every drop of milk of which they are capable.

The chief cause--almost the only cause--of poor milkers is the condition of their health. Particularly the health of the milk-making organs.

Kow-Kare, the famous cow medicine and conditioner, acts directly on the milk-producing organs. It tones up the genital and digestive functions, makes them sturdy and active. More milk and better health must result. Feed Kow-Kare one week out of each month (a tablespoonful twice a day) and the result will surprise you.

For the treatment of Bloat, Abortion, Retained Afterbirth, Scours, Bunches, Milk Fever, Lost Appetite, etc., Kow-Kare has a well-earned reputation. No dairy farm should be without it. For twenty-five years it has been the chief reliance of thousands of dairymen, when they're sick.

Feed dealers, general stores and druggists sell Kow-Kare, \$1.25 and 60c also. Write for our free book, "The Home Cow Doctor." It is full of information valuable to cow owners.

JANBY ASSOCIATION Norwich, N. Y.
 Distributors of Gargol Remedies, Dog Balm, American Horse Tonic and Horse Cambr.

Unprofitable Cows are often sick without appearing so!

Watch the milk pail closely. The rise and fall of the yield indicates the health condition of the cow. A cow may look well, yet be suffering from sluggish digestive or genital organs. Kow-Kare acts directly on these organs. It restores normal milk yield and enables the cow to throw off disease.
