Tidbits From Our School

The third number of the Senior Entertainment Course will be held Tuesday, January 15th. William Rainey Bennett, one of the greatest dramatic orators of the day will be the speaker for the evening.

The January meeting of the Parent-Teachers Association will be held at the High School next Thursday, the 11th. There will be a health program with local speakers. Every one is requested to prepare and bring a question to be placed in the "question box" to be answered during the meeting.

Leap year has already begun to reap its harvest. We now have one dignified senior who has indulged in matrimony.

Mrs. Thorne discovered a kitten in our midst early this week. Was it you Virginia? Or Ruth, are you responsible?

Another League Game for Andover

The Andover High School basketball team hit the undefeated Almond High School team down on the small end of a 17-12 score at Almond last Friday night. The game was played in Almond's new community hall, next to the school house, which has a very high ceiling, permitting long, well-arched shots, however the lack of "steering" the fast cutting and speed in getting out of hand plays started, on the part of the Andover team, was a treat to the followers of the purple and white.

Line-up and summary:

Andover
Harrier, Gibbs, Leahy, and Faisant
Almond
Davis, Brown, Wright, Hopkins, Wright, Crusen, Wright, White, Hanks

Field Baskets: Leahy, 4; Faisant, 1; Davis, 3; Brown, 1; Wright, 1.
Foul Baskets: Harrier, 1 of 2; Gibbs, 1 of 3; Leahy, 0 of 3; Faisant, 1 of 2; Davis, 2 of 6; Hopkins, 0 of 5; Crusen, 0 of 1.

Score at end of first half 7-5. Andover, at end, 12-12; final 17-12. Andover.

Referee: Drummond of Alfred.

Three Games for Andover
Andover girls shut out Alfred girls in a game of basket ball at the gym last Tuesday night. Beebe's and Folsing's guarding spoilt many an Alfred shot while Hyland's shooting featured the game.

The boys kept up the good work by defeating the Alfred boys, 17-11. The close guarding of the Alfred guards prevented Gibbs and Harrier from getting a basket, but Leahy and Faisant repeatedly broke away from their opponents for attempts at the basket.

Line up and summaries:

Andover Girls
Perry, Theetge, Shepard, Hyland, Beebe, Hyland, Shepard, Beebe, Perry, Folsing
Alfred Girls
Brundage, Randall, Stines, Bruman, Rogers

Field Goals: Theetge, 4; Hyland, 1; Shepard, 2; Beebe, 1.
Foul Goals: Perry, 1.
Score, 23-0. Referee J. C. Dawson.

Andover Boys

Harrier, Gibbs, Leahy, Hyland, Faisant
Alfred Boys
Lewis, Jacques, Coon, Stillman, Van Etter, Armstrong

Field Goals: Leahy, 3; Faisant, 1; Lewis, 4; Jacques, 1.
Foul Goals: Harrier, 1 of 1; Gibbs, 0 of 2; Leahy, 2 of 4; Hyland, 0 of 2; Faisant, 0 of 2; Lewis, 0 of 5; Jacques, 0 of 2; Van Etter, 1 of 4; Stillman, 0 of 1.

Score 17-11. Referee, Campbell of Alfred University.

OLEAN SALOONS

DENIED LICENSES

Olean, Jan. 5.—Disapproval of 25 applications for licenses for soft drink establishments was announced today by Chief of Police Demsey in a statement in which he said that it was improbable that any of the approximately 110 licenses issued last year would be renewed. His statement is generally looked upon as the beginning of the reform program expected to be carried out by Mayor George H. Pierce.

"Just think, it was against the old blue laws to kiss one's wife on Sunday!"
"That so? What was the penalty?"
"Dunno. No husband was ever brought up on the charge."—Boston Transcript

Pipe Arch Bridge.

An engineering curiosity, said to be unique to this country and to have only one parallel in Europe, is the pipe arch bridge over the Sudbury river which carries Boston's water supply. The span is eighty feet, and the steel pipe seven and one-half feet in diameter, rises five and one-half feet above the horizontal at the center. The pressure on the abutments when the pipe is filled with water is great and is resisted by a mass of concrete forty feet thick behind each abutment. Across the curved top runs a hand-railled foot bridge. The steel of the pipe in the arched portion is five-eighths of an inch in thickness.

Working Toward an Object.
Did you ever hear of a man who had striven all his life faithfully and sincerely toward an object and in no measure obtained it? If a man constantly aspires, is he not elevated? Did ever man try heroism, unquenchable truth, sincerity, and find that there was no advantage in them, that it was a vain endeavor?—Henry D. Thoreau.

Exchanged Ideas.

That the Hittites were in constant communication with other nations is shown by the fact that Egyptian scarabs and mauls, Phoenician pottery and Greek terra cotta figures are found in the tombs of different periods. Bronze daggers and jewelry are fairly common and a safety pin, 3,000 years old, that would still work, is said to have been found.

Turtle Comes Up for Air.

The mud turtle takes in a certain amount of air and then buries himself in the mud. When this air is exhausted he comes up for more. However, in the winter time the mud turtle buries himself in the mud in a state of hibernation and remains several months.

And the Overhead.

"Are you sure you have shown me all the principal parts of this car?" asked the fair prospective purchaser. "Yes, indeed, all the main ones," returned the dealer. "Well, then, where is the depreciation?" Tom told me that was one of the biggest things about a car."—American Legion Weekly.

On Happiness.

There is no happiness but in a virtuous and self-approving conduct. Unless our actions will bear the test of our sober judgments and reflections upon them, they are not the actions and consequently not the happiness of a rational being.—Benjamin Franklin.

Making Matches.

Matches are turned out in huge quantities by machinery. The machines now in use cut up great planks of wood into match splints at lightning speed. The ends of the splints are then passed through a paraffin bath and receive their heads.

Anger Inflicts Wounds.

"Anger is a weapon that is handled by the blade," and he who uses it is sure to inflict the deepest wounds upon himself. Wrath may strike heavy blows, but it cuts into the soul of the one who makes it his instrument.

"Gas" Evaporates.

The volume of gasoline that is lost by evaporation in one stage in the handling of crude oil is equal to one-thirtieth of the country's annual gasoline production.

Hindus Invented Bungalows.

The word bungalow is an Anglo-Indian version of a Hindi word, which primarily means Bengali, or of Bengal, and is also applied to a thatched hut.

Popo Company.

"It's willing to admit," said Uncle Eben, "that maybe dar is ghosts. Jest de same I ain' huntin' aroun' fo' none cause I never yit heard of one dat was'n' mighty pore company."

Ignore Gossip.

As to people saying a few little words about us, we must not mind that, any more than the old church steeple minds the rocks cawing about it.—George Eliot.

Early Epigrams.

It has to be remembered that the early epigrams which now sound so flat, were not insipid when they were perpetrated.

Heard at the Circus.

Teddy looking at the animals—"Oh, pa, the elephant picked that peanut up with his vacuum cleaner."—Boston Evening Transcript.

The Reddegram.

"When he married her, she settled a sedan, a special touring car and a racer on him." "Sort of a marriage of convenience, wasn't it?"—Life.

Keeps a Man Busy.

It keeps a man busy these days thinking and scheming how to avoid stepping on the ears that his wife has placed on the floor to be looked at.

Plants.

When branches of a house plant start to die, clip them off. This aids in keeping the plant in best proper shape.

The Lazy Man.

Nature is good and kind and all that, but it has no use for a lazy man. The minute he quits hoeing she starts filling up his garden with weeds.

Just So.

It is easy to preach contentment when you have all the cake.
