

This Week

By Arthur Brisbane

ABOUT EARLY SUCCESS.
1,400 FEET DOWN.
FORD AND MUSCLE SHOALS.
NOTHING LIKE SUCCESS.
HARSH WORDS FOR GIRLS.

It doesn't pay to make children work too hard. What they need in youth is warmth, affection, exercise, good food, long sleep. Heavy learning can come later.

You have read about William James Sidis, the boy phenomenon, who, at eleven years of age, was in Harvard University, debating with professors on the fourth dimension, and came out of Harvard at thirteen.

That young gentleman is working now as a clerk at \$23 a week and doing his "higher mathematics" on a cash register. He says he hates the name of Harvard. He is discouraged, and, from a published interview, he appears to lack the greatest of assets, mental courage. It's easy to take that out of a human by over-pressing in childhood.

The vanity of parents ends sometimes in destruction of the child's chances.

Wireless signals in the code of the United States Navy have been heard 1,400 feet down in a mine in Arizona.

"Sound without wires going thru 1,400 feet of solid rock" seems marvelous. But we must remember that there is no such thing as "solid" earth. And there is no such thing as solid matter, only electrons, that form atoms, atoms that form molecules, and molecules that form what we call matter, the particles of that matter being as far from each other, in proportion to their size, as the earth is from the sun. There is no reason why radio waves should not go anywhere, since there is no solid matter to stop them.

Various concerns offer to rent Muscle Shoals, suggesting in a feeble, doubtful kind of way, that they will "be the fertilizer." The farmers of the United States have been told by the fertilizer trade that he will produce cheap fertilizer at Muscle Shoals. The farmers and others want Henry Ford to make good on that promise and he should have the opportunity.

Ford, as you in the state of New York, one of his new plans, an industrial building, which he directed that he, with his own money, should build a factory, a factory of water changed into electricity.

Good food, the old saying, "Muscle Shoals" will produce, "fertilizer" for the farmers of the world. He will do it, but it is not important, showing the people of the United States how the world can be made better, and how the people's benefit.

A statement had been made that "What does marriage mean?" Newspapers discuss that it is a sound new.

It is what the monkeys said or would have said if they could talk, half a million years ago. Mr. Monkey would say: "When I am tired of one lady monkey, I go off and find another. That's my idea of love."

Marriage is an institution not established for the amusement of monkeys or men, but for the protection of children, to establish respect for women, and make men gradually more decent.

We should be even closer to the monkeys than we are now, but for the institution of marriage, which has trained men to suppress the monkey within them.

Dr. Charles J. Smith, president of Roanoke College, Virginia, has been to see about the modern girl. Reading it, you will hope that nothing unpleasant was left unsaid:

"Some women in every age drank liquor, a few even enjoyed a smoke many of them threw away their honor, but the world has never known the burning loss of such an army of hard drinking, cigarette puffing, fire-eating Amazons as walk the streets and invade the college campuses today."

It may be or seem true, but, as usual, the next generation will be a little better than those before it. Evidence attests to that, and makes very good mothers of the "beastly Amazons" that worry good Doctor Smith. He must remember the famous Olympians, who danced stark naked, with corsets around her, consulted physicians, and the baby of her husband's second wife.

Dr. who was the mother of Alexander the Great.

People talk of "a saturation" in the motor industry. There is no such thing as "saturation" in the automobile world. People buy cars, use them up, buy others.

The farmers in the country used to buy two million buggies every year. We only manufacture four million automobiles a year now. At this moment the country ought easily to absorb six or seven million cars a year. Every car pays for itself and represents economy.

THE HOME PAPER IN VERSE
A Series on the Country Weekly
Published in Promotion of Home
Paper Week February 3-9.

If the resident of a community were always as keen in their appreciation of the home town paper as is the man or woman who is hundreds or thousands of miles away, there would be less need of campaigns like "home paper week" to be observed all over New York State Feb. 3-9. Indeed, most of the poems on the home paper have been written from the point of view of the former resident. One of the best of these is anonymous, and has been going the rounds of the rural press for several years. Usually it is printed under the caption "The Old Home Paper." It follows:

It's printed old-fashioned and homely,
Bearing name of a small country town;
With an unfeigned sneer at its wrapper queer,
The postman, in scorn, throws it down.
But I can every line that it offers,
For I am brings something to view,
Thru the vista of years, thru youth's pleasure and tears,
I never have been touch to renew.
The death of the girl I once courted,
The growth of a firm I once feared,
The rise of a friend I love to commend,
The fall of a man I revered.
As I read I drift dreamily backward
To the days when to live was a joy,
I think and I pore, till the city's dull rear
Grows faint and again I'm a boy.
Rare perfume of green country by-ways,
Fair music of flowers and bees,
And the quaint little town with the streets leading down
To the creek and the low-bending trees.

Around me the forms of my comrades,
The olden stories unfurled,
Each heart undimmed, with the faith of a child,
Looking forth to a place in the world.
And the paper tells how all have prospered,
I follow their ways as they flow,
And the paper tells how all have prospered,
I follow their ways as they flow.

Minister Police Chief

Rev. Allie W. Leigh, Baptist Church Minister of Paducah, Ky., was so active in moonshine raids last year that he has now been made Chief of Police in that city of 25,000 residents.

Flowers for Luck.
In Switzerland when the cows are driven to the mountain pastures for the summer, the leader, which wears a bell, has her neck garlanded with flowers for luck.

Fond of Flowers.
Swedish women of all classes are particularly fond of flowers, and in proportion to their size and population Stockholm contains more flower shops than any other European city.

The Inner Light.
After all, the kind of world one carries about within one's self is the important thing; the world outside takes all its color and tone from that.—Boston Transcript.

Forgives Father for Death Sentence

A little Brooklyn tailor, A. K. Lindsay, thought so highly of his own oath to tell the truth that he admitted his son's private confession of guilt in murder. His testimony convicted, and the son was sentenced to death in the electric chair February 14th. Owing to the jury's error, the judge could show no mercy. The case stirred the east and an appeal was made to the Pardon Court for life imprisonment. "Dad, you did right," said the 23-year-old youth in forgiveness, shown above with mother and father.

Guard the Udder!

The ease of milking, and the amount of the yield is quickly affected by any external scratch, cut, chaf or inflammation. It is foolish and costly to neglect these apparently "small" hurts.

Apply Bag Balm to the injured part, and healing begins at once. The penetrating, soothing action of Bag Balm protects the wound, restores healthy circulation and promotes quick healing.

Soft, silky udders and teats, free from scars and hurts make easy milking and a full yield. Keep Bag Balm on hand for any emergency.

Large 10-ounce package, \$1.00 at feed dealers, general stores and druggists. Write for free booklet, "Dairy Wrinkles."
