Two inspectors of potatoes from New York, visited our town last week and made a lot of trouble. One buyer had three hundred bushels in a car in sacks. They went thru them and refused to load of them. ### CONFIRMED PROOF

Residents of Andover Cannot Doubt What Has Been Twice Proved.

In gratitude for relief from aches and pains of bad backs—from distressing kidney ills—thousands have publicly recommended Doan's Pills. Residents of Andover, who so testified years ago, now say the results were permanent. This testimony doubly proves the worth of Doan's Pills to Andover kidney sufferers. L. A. Johnson, blacksmith, Main Street, box 151, Andover says: "Kidney trouble had a firm grip on me and my back ached terribly. Every time I stooped—or did heavy lifting, a sharp pain would catch me in my back. The kidney secretions passed infrequently and were highly colored. I was all out of shape and lame and sore all over when I began using Doan's Pills. Doan's soon had me feeling better and it only took three boxes to cure me." (Statement given August 14, 1924.)

On July 18, 1923, Mr. Johnson added: "I am glad to confirm my former statement for the cure Doan's gave me has been a lasting one."

## The Greater Movie Season

Now is the time to Revise Your Screen Opinions

CHANGE, change, change, that is the law of progress! What's fixed is dead and the movies move!

Within the heart of every energetic man and woman in the motion picture industry is the passionate wish to make a photoplay that will fire the imagination of whole nations with its glory.

Can anything tawdry, ditty, flashy or cheap do this?—Of course not and they know it.

The motion picture people know today, as surely as the Church of God knows, that the greatest theme is the theme of Man and Woman dramatically fighting shoulder to shoulder to get above the earthiness of the earth.

We all know our feet are in the mud, but our eyes are on the stars!

Anything that drags us down will soon quit paying its producers because that's not the way we aim to go!

Motion pictures are on the right track today.

See them and they will give you a new idea of the punch of real entertainment.

The Greater Movie Season is here: prove it by going!

### Political Camouflage

This is the season when political bosses of all parties begin to paint their parties in glowing colors, for the most part in approved camouflage. The first evidence of such activity was evidenced when the *New York Times*, which handles "all the news that's fit to print," gravely announced recently that North Dakota had voted 30,379 in favor of President Coolidge and 27,343 for Johnson. The figures gave heart to the Coolidge men and a cold shiver to those who favored the man from the White Star. The people, however, are not told that these figures came as the result of a "state proposal convention" one of those delightful little inventions of the political boss trained chiefly for purposes of propaganda.

It is interesting to note that the members of the "state proposal convention" are self-appointed agents of the old guard. More interesting, however, is the manner in which they arrive at their total vote. One gentleman arises and states he comes from a district which nominally polls 15,000 votes. Therefore, he casts those 15,000 votes for Coolidge, or Johnson as the case may be. Another member arises and "coming from a district having 10,000 votes," he casts 10,000 for the man he has been directed by the bosses to support. These 15,000 and 10,000 voters have not authorized delegates to vote for them. They have never even expressed themselves on the question. But the secretary of the convention adds the figures as voted and the result is seriously given out to the country as the voice of the state. In this case there was recorded a sweeping victory for Coolidge. It might, with equal absurdity, have been declared a sweeping victory for Johnson.

It is political frauds of this character that are causing the rapid spread of so-called independence in politics, and it is truly unfortunate when responsible newspapers lend themselves to such public deception. After all, regardless of their political leanings, the people want to know the truth, not to be deceived.

Now comes a new threatened court battle over the proposed release from an insane asylum of Harry Thaw, slayer of Stanford White. Thaw has done very nicely since he has been in the asylum and so have the people. The world can still get along without disturbing the existing condition.

The people would like to have the soldiers get a bonus. At the same time they would like taxes reduced. At the same time they would like to keep on gouging the rich through taxation. How much depends on whose ox is gored!
