Aunt Ada's axioms: Because home and homely come from the same root is no reason for ugly furnishings poorly arranged.

One reason colds go thru the family is because the dishes used by persons having colds aren't washed vigorously with hot soary water and properly scalded.

If you're thatful over feeding the family, you'd like the food value thart from the state college at Ith-Ask for E 71.

If the family budget for food is divided into five parts, one-fifth for milk, one-fifth for vegetables and truits, one-fifth more for cereals ancereal foods, not more than one-fifth for meats and meat substitutes, and misone-fifth for f.ts, sweets and mis-cellaneous articles, the diet won't be far wrong.

A poor milker costs just as much to house, feed and care for as a good producer. For this reason just a slight increase in the milk yield makes a big difference in the met profit. Dairy experts say an increase of 10% in the milk yield will double the profit.

How important it is, then to get from your cows every pint of milk of which they are capable.

The chief cause—almost the only cause—of poor milkers is the condition of their health. Particularly the health of the milk-making organs.

Kow-Kare, the famous cow medicine and conditioner.

health of the milk-making organs.

Kow-Kare, the famous cow medicine and conditioner, acts directly on the milk-producing organs. It tones up the genital and digestive functions, makes them sturdy and active. More milk and better health must result. Feed Kow-Kare one week out of each month (a tablespoonful twice a day) and the result will surprise you. For the treatment of Barrenness, Abortion, Retained Afterbirth, Scours, Bunches, Milk Fever, Lost Appetite, to, Kow-Kare has a well-carned reputation. No dairy harn should be without it. Por twenty-five years it has least the chief reliance of thousands of dairymen, when yows are sick.
