

This Week

By Arthur Brisbane

ABOUT 1,000 CANDIDATES. "VENGEANCE IS MINE." COPPER NEEDS SALESMEN. FORD, NOT INTERESTING. IF DAUGHERTY TALKED.

How many sturdy Americans willing to serve their country are now planning to be President, do you suppose? There was a general feeling that McAdoo had the Democratic nomination unless Al Smith could get it away from him. It seemed certain that Mr. Coolidge had the Republican nomination by an overwhelming majority on the first ballot.

But a little oil makes a great difference in the political situation, and now anybody has a right to hope.

Many an ambitious American is spending his dollars now, handing them to "political experts" in return for Presidential promises.

There are probably at the least one thousand "serious" candidates at this moment.

Friendly warning to big men inclined to injure business and scare little stockholders in revenge for the Senate oil investigation.

DON'T DO IT.

It won't pay in the long run, and besides, it is written, "Dearly beloved, avenge not yourselves."

Public officials have had a warning, learned a lesson. Some will get more than a lesson. Valuable truths have come out; others are coming.

On the whole, it's a small thing, which really doesn't amount to much more than catching little Willie telling a fib. No reason for breaking up the family. Send Willie to bed and let business go on.

Another copper concern, the Inspiration Copper Company, followed the example of the big Anaconda, and skipped its dividend.

There is even worse news about whales than about bees. Whales are not coming up from the South Pole as they used to come, offering oil from blubber, whalebone from their skulls, and proof of evolution, in the two little hip bones, concealed in their fat carcasses—also they no longer use the legs to which those hip bones were once attached.

The whalebone doesn't matter. For ladies now go loose around the waist, as a rule. But the whaling industry is in bad shape.

side" is to get any money in a sachel or any "loan" from a friend. Ford offers millions to the Government, cheap fertilizer to the farmer and, most important, demonstration of the use that can be made of water power. But that isn't enough to interest gentlemen accustomed to "private talks," "private codes" and "private financial arrangements."

Mr. Mellon, Secretary of the Treasury, says the national debt has been reduced \$933,000,000 in the last year, and four thousand eight hundred millions in four and a half years. Your glorious country now owes \$21,781,966,852. It takes a big and prosperous country to owe as much as that. And while we ought to pay off rapidly, we COULD owe five times that amount, and more, too, and not be bankrupt.

Men and women with more self-confidence than intelligence intend to produce in New York a play, "All God's Chillun Got Wings."

In this play a white woman falls in love with a negro, marries him, and, kneeling before him, kisses the negro's hand. A full-blooded negro of unusual intelligence will play one part, a white woman will play the other.

There is perhaps no law that can stop this foolishness, but common intelligence and decency should stop it. IF ONLY FOR THE SAKE OF THE NEGRO RACE.

The dullest mind connected with that theater must know that to show a white woman falling on her knees and kissing a negro's hand is a bad thing for the colored people, of whom there are tens of thousands in New York—to say nothing of millions elsewhere.

Attorney General Daugherty declares that "if some Senators do not resign, he, Daugherty, will cause some splash."

Mr. Daugherty knows the difference between a "splash" and a little ripple. The public will watch for the splash with interest. The Attorney General could reveal more about the real character of certain officials than half a dozen oil investigations. He knows what senators and others are trying to do, whom they are trying to shield, and whom they seek to prosecute.

Publication of Mr. Daugherty's private information would cause a "splash" indeed.

There is even worse news about whales than about bees. Whales are not coming up from the South Pole as they used to come, offering oil from blubber, whalebone from their skulls, and proof of evolution, in the two little hip bones, concealed in their fat carcasses—also they no longer use the legs to which those hip bones were once attached.

The whalebone doesn't matter. For ladies now go loose around the waist, as a rule. But the whaling industry is in bad shape.

A SIMPLE HOME TREATMENT FOR BENEFIT OF WOMEN

When sick, weak, nervous and run-down; when pains-over the small of the back, headaches and dizzy spells almost drive you crazy—don't give up hope, and don't waste your time and money with unreliable medicines, but go to your druggist at once and obtain a bottle of **DR. DAVID KENNEDY'S FAVORITE REMEDY**. This old time vegetable favorite has been successfully used by women for more than 40 years. The first few doses will convince you of its remarkable far-reaching merit. Try it to-day.

DR. DAVID KENNEDY'S FAVORITE REMEDY

Richard McAndrew and Elizabeth Huggins, Plaintiffs, against

John McAndrew, Tide Water Pipe Co., Ltd., Sylvester Cannon, Frank Raufenbarth, Angie C. Tullar, E. B. Rollins, Frank W. Burrows, Gertrude Burrows, Elmer Parker, First Trust Company of Wellsville, New York, Orville T. Perkins, Helen T. Perkins, Andover State Bank, Edward J. Atwood, Lena McQueer, Milton Carpenter, Kathryn Clark and Earl B. Clark as Executors of the goods, chattels and credits of M. Fred Clark, deceased, Margaret Garvin as Executrix of the goods, chattels and credits of Patrick Riley, deceased, and F. W. Burrows, as Administrator of the goods, chattels and credits of Augustus M. Burrows, deceased.

By virtue of a Judgment of Foreclosure and Sale, granted by this Court in the above entitled action, and entered on the 7th day of February, 1924, in the office of the Clerk of the County of Allegany, at Belmont, N. Y., the undersigned, ELDYN V. CHAMPLIN, a Referee duly appointed in this action for such purpose, will sell at public auction on the 24th day of March, 1924, at 2 o'clock in the afternoon of that day, at the Law Office of Crayton L. Earley, in the village of Andover, N. Y.

ALL THAT TRACT OR PARCEL OF LAND, situate in the Town of Andover, County of Allegany and State of New York, known and distinguished as the South (52, 10-100) fifty-two and ten one-hundredths acres of the East one hundred and two and ten one-hundredths acres (102, 10-100) of Lot number (48) forty-eight in town ship number two (2) in the seventh range of townships in the County of Allegany. Being the same premises mentioned and described in a deed from Anthony McAndrew and Mary McAndrew, his wife, to John McAndrew, as aforesaid, dated on the 28th day of August, 1890, and recorded in the Allegany County Clerk's office on the 10th day of June, 1891, at 11 o'clock A. M., in Liber 150 of Records at page 325.

Dated this 7th day of February, 1924.
ELDYN V. CHAMPLIN, Referee.

Plaintiffs' Attorney,
Andover, N. Y.

10 daring tests of Oakland's Duco Body-finish

- See These Tests**
- Muriatic Acid**—It does not harm Oakland's new finish.
- Sulphuric Acid**—A finish that stands this test will stand the hardest usage.
- Fire**—Even a flame cannot harm Oakland's finish.
- Ammonia**—The strongest ammonia is used in this test.
- Fire Extinguisher**—It kills fires but not the brightness of Oakland's finish.
- Lime Cement**—This test proves that it's hard to harm Duco finish.
- Hot Tar**—See how easy it is to clean road tar from Duco.
- Boiling Water**—It is fine to know that the finish will stand this test.
- Mud**—See a muddy car cleaned with a dry cloth without harm to its finish.
- Dust**—With Duco you can easily dust your car as often as you please.

Every day and evening, beginning March 17th and ending March 22, we will put on a most unusual demonstration at our show room. The beautiful new Duco body finish of the True Blue Oakland will be tested and its remarkable qualities proved right before your eyes.

After seeing these tests, listed at the left, you will realize what a wonderful advance Oakland has made in bringing out this new finish.

Come—Bring the Family See These Tests

Examine, too, the many other advanced features of the 1924 Oakland, the desirability of which can also be demonstrated just as conclusively.

Every Day and Evening March 17th to 22nd

H. D. ROGERS ANDOVER, N. Y.

Tuttle & Rockwell Company

Main Street, Hornell, N. Y.

The SUIT

In Many Smart Versions \$39 \$49 \$59

Many Suits of twill are smartly simple with diagonal bands of fabric as trimming. Link button closings are fashionable, and satin lapels as well.

Suits of grey and tan flamingo are for the sports-going girl. Their double breasted jackets are short and have big pockets; their skirts are wrap-around.

Pencil stripes give the final note of mannishness to a black or dark blue Suit that has fitted lines. You will like this Suit and its interesting accessories.

For weeks, perhaps, you have been tempted to present yourself with a new Suit, knowing that nothing is more fashionable this season.

This is a special showing you should take advantage of; important because values are excellent and because all the fashionable tailored Suit models are included in the Tuttle & Rockwell showing.

Just a Little Chat About a \$5.00 RACK

We have placed just a dozen Winter Coats, including Misses', Women's sizes, 16-18, even several extra large sizes, all serviceable dark colored Coats, as navys and blacks. Also several dresses on this rack.

ECONOMY—Despite unrelenting demand, Portland Cement remains the most economical building material. Comparison of prices of building materials and Atlas Portland Cement. Source: Building material prices from U. S. Bureau of Labor Statistics. Atlas Portland Cement prices from the records of the Company.

ATLAS EFFICIENCY and DISTRIBUTION Insure Building Economy

THE cheapest of all products undergoing a complete manufacturing process is made available through simplified economical distribution to the user.

Between the Atlas plants and the user there is but one distributor—the building material dealer—and the directness of this marketing serves to bring Atlas to the buying public cheaper than any other method devised.

The Atlas dealer with his warehouse and yard storage safeguards building operations through an ample supply of materials, and with his trucks and general facilities he can make prompt emergency deliveries. Back of the Atlas dealer is the Atlas reserve storage capacity, greater than the output of the entire nation twenty years ago.

In a period of advancing costs, the price of Atlas has remained consistently low. Today it is cheaper than it was thirty years ago. All Atlas plants, operating under one central control, make only one grade of Portland Cement—the best that science and skill can produce—and every member of the operating group takes pride in helping to maintain Atlas as—
